#### Stop work order posted whencheque "bounces"

Work on a \$3,395,000 eight-storey building in Richmond Hill was held up Friday afternoon by a town stop-work

The order was posted when the \$14,000 improvement fee cheque from owner 359203 Ontario Limited "bounced", according to town Building Administrator Ken Naylor.

A representative of the contractor Kossar Properties Ltd. of Hamilton immediately called from Ottawa and promised a certified cheque would be delivered to the town on Monday

The cheque arrived as promised, the stop-work order was lifted and work on preparing the foundation footings

Little time was lost since only a few truckers, excavating machine operators and a job superintendent were on the site Friday, Naylor said.

The trouble with the fee payment apparently was due to delay in financial arrangements between the new owner and the former owner Captain Developments as to payment of the \$14,000, Naylor said.

The building on Yonge Street at Crosby Avenue will have 92 apartments

#### Walkers to try again

Third time lucky . . . maybe? A planned walkathon and bikeathon, originally scheduled to happen a month ago will try again this Saturday.

It will be the third attempt to outsmart the weatherman, who for the last four weeks has been showing the worst possible side of his personality.

Assuming everything works out Saturday, the event will begin at 9 a.m. from St. Mary's Anglican Church. The 16-kilometre route has been laid

out for the walkers. Those on bikes will complete the course twice. For further information, call Win Gray at 884-3878.

#### Residents want sewers

About 60 ratepayers from the Elgin Mills Road, Regent and Oxford Streets area petitioned Richmond Hill town council for sewers Monday night.

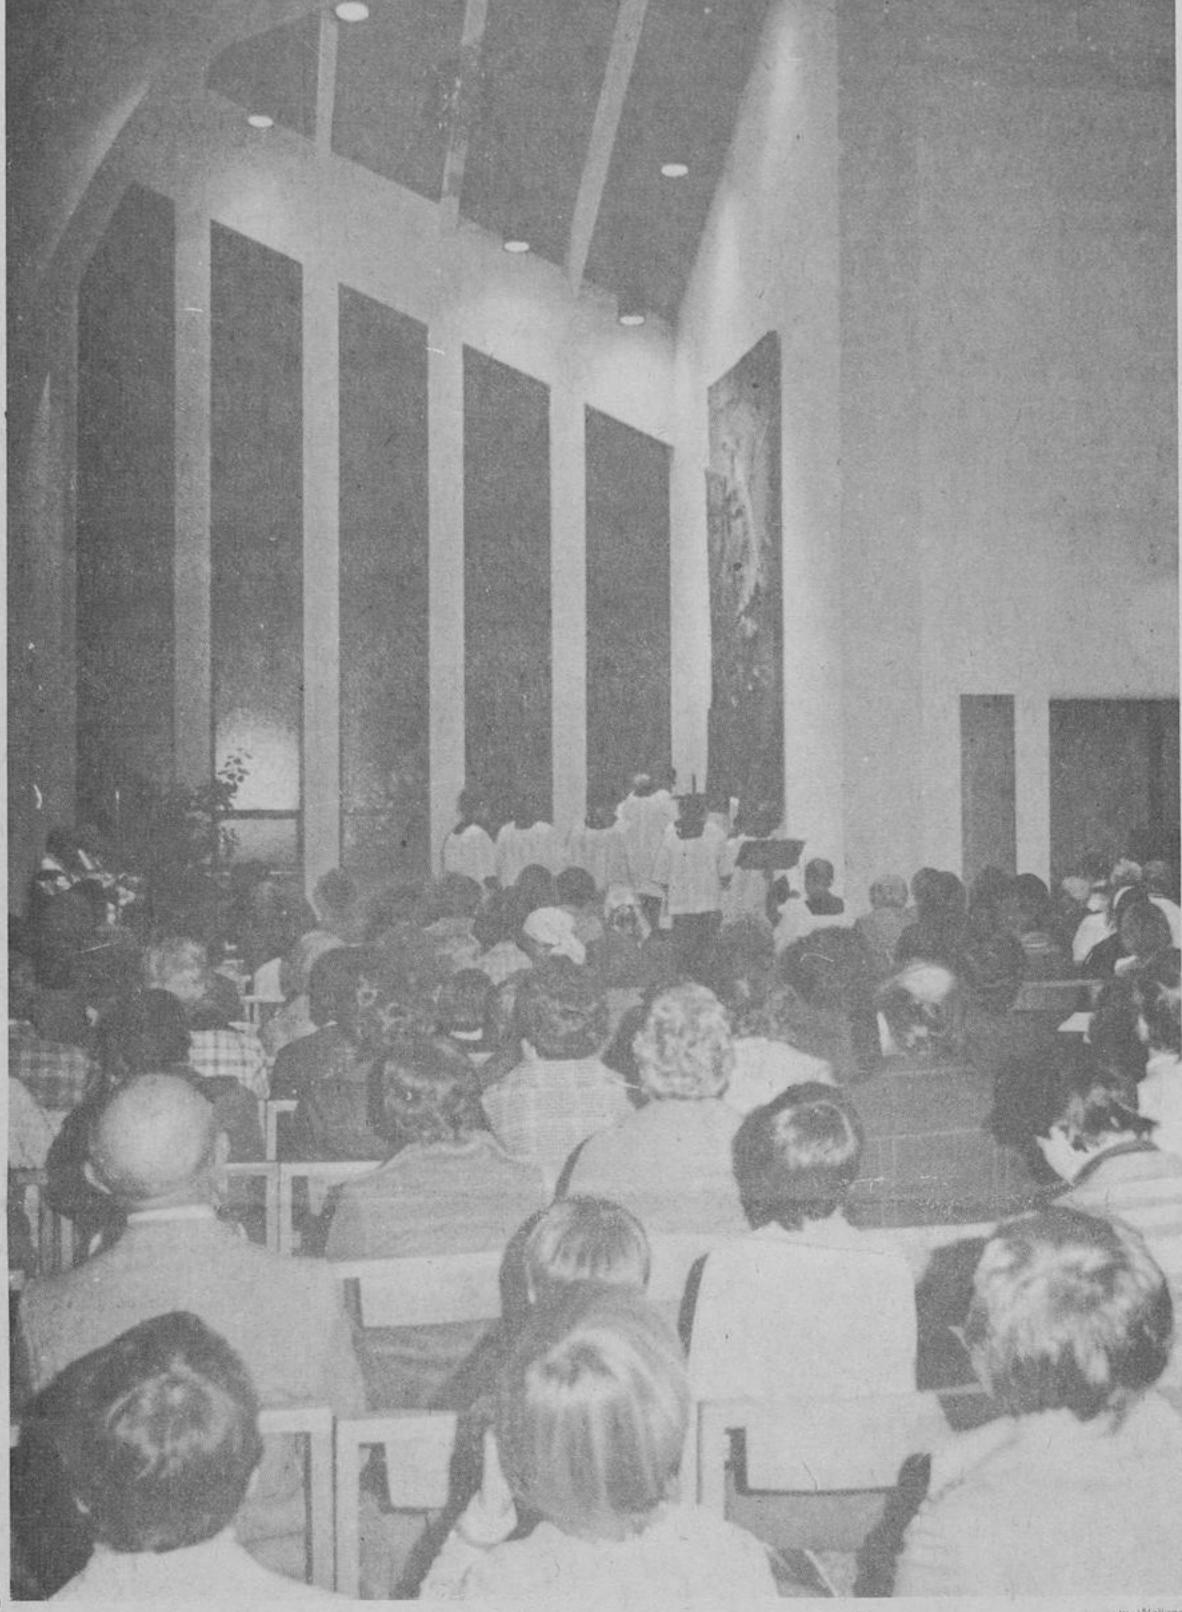

"The time is appropriate for you to install these services. The area has been semi-developed for over 60 years. It is adjacent to existing serviced areas," said Ray Crowther of 71 Oxford Street.

Crowther was spokesman for a delegation of 20 citizens who turned out to the council meeting in support of the petition.

Mayor David Schiller promised the request would go to town staff. A report on carrying out the people's wishes would be prepared.

Councillor Marylo Graham, planning committee chairman, told the petitioners the Official Plan being prepared for the town will indicate which areas should be developed more intensely first.

Regional Councillor Lois Hancey said the area drains into the Pugsley Street sewage treatment plant which the provincial authorities already consider to be overloaded.

Shrine dedication

Some 200 parishioners took time out Thursday night to attend a special Mass at St. Mary Immaculate Church to celebrate the Diamond Jubilee of Fatima. Highlight of the evening was the blessing of a huge bronze shrine, which can be seen in the background above the priests and altar boys. Shrine is 13 feet high and weighs more than a ton. Sculptor, Bill McElcheran of Toronto, was in attendance.

## Daughter wins race against the clock

For York Regional Police detective Dick Witteman, this sort of thing has to stop.

Two years ago, right in the middle of the Grey Cup game, Dick's wife' Lynn had to be rushed to hospital to have a baby. She made it.

Saturday, right in the middle of a World Series ball game, Lynn again had to be rushed to hospital.

This time, she didn't make it. And, it was up to hubby Richard to provide the necessary assistance as Lynn gave birth to a daughter in the car on the King Sideroad.

The couple attempted to make it to York Central Hospital in Richmond Hill, and Dick was confident.

"We'll be there in 10 minutes," he assured Lynn. Lynn couldn't wait.

"Stop the car ..... right now," she instructed. Daughter Rebecca Lynn and mother are doing fine in York

Central. Dad took a week off to recover,
