Why we bought our home in PLEASANTVILLE

Five Reasons to Make it your Next Move

When we decided on our big final move up, we realized it would be our most important lifetime purchase. So we drew up a checklist of features that mattered most to us.

Here they are. Pleasantville has them all:

- MOST REWARDING LIFETIME INVESTMENT**
Checking the actual records, we found that Pleasantville homes have continued to increase in value more than anywhere else in Greater Metro. One reason is that, for a quarter century, the same original architect has continued to supervise every custom designed house, right down to the landscaping (at least two large trees, six foundation plantings for every home). Two beautiful white birches grace our own sloping lawn.
- COMPATIBLE NEIGHBORS**
Only some ten or twelve houses are completed each year. And every new arrival is immediately accepted into the "family". In effect, when you move into Pleasantville, you become part of a private village. (Yes, now in its third decade, Pleasantville has stayed small.) And you'll feel at home among the executive families for whom the community was designed.
- STORYBOOK SETTING WITH FULL CITY SERVICES**
Our house looks out on Pleasantville's own landscaped park. That's on one side. On the other lies a rolling autumn meadow. And beyond is the lush greenery of the Country Club.
- TRADITIONAL BEAUTY, PLUS SOLID CONSTRUCTION**
It's true that the builders take much longer to build a house in Pleasantville. Everything must be of the best. And when you move in, you know you have something that will endure.
- WARM, CONGENIAL FAMILY LIFE STYLE**
There's no through traffic, so it's safe for our children, their games and their bikes. Every home owner has room for a swimming pool. Neighborhood fishing in a 19th century mill-pond. Pleasantville school is right there - no car pools for us. As for the school itself, The Liberal commented that it was full of over-achievers.
- Canada's Largest Selection of Eyeglass Frames and Sunglasses**
- Fashion Eyewear by the World's Leading Designers**
- Optical Laboratory on the Premises for even Greater Service**
