**Hill loses twice to Thornhill atoms**

You would have to say that the Thornhill Atom B's have had their Richmond Hill counterparts number to date this season in minor hockey. The same numbers. Thornhill met Richmond Hill twice recently and defeated them 7-2 in

both games. An Oct. 27 game saw the Thornhillers move into a 2-0 first period lead on goals by Neils Orbbim for Mark Higgins and Eric Geall; Curtis Wruck from Greg Vanderburgh. The same Thornhill team outscored Rich-

mond Hill four goals to two in the second period. Goals went to Geall from Higgins; Peter Mei from Pat Martin and Higgins; and Mei again from Higgins; and, finally, Geall from Bradley. Dave McKee got Rich-

mond Hill's first goal from Jason Maxey; and Sean McKenna got an unassisted one before the period ended. Thornhill's final goal was scored by Walter Carbis in the third period from Bradley.

The Oct. 23 game saw Richmond Hill leading Thornhill 2-1 at the end of the first period on a pair of goals by Cesidio Negri with assists to Dave McKee and Jason Maxey. Thornhill's goal was by Chris Herbert from Walter Carbis and Robbie Spring.

Higgins tied it for Thornhill in the second from Geall; and Bradley put his team in front from Carbis.

Three more Thornhill goals broke the game wide open: It was Geall unassisted; Curtis Wruck unassisted; and Geall from Carbis.

Wruck scored the final Thornhill goal in the last period.

**Special class rejected**

Re-establishment of a special "diagnostic" learning disabilities class at Kleinburg junior public school was turned down in a 10-7 vote of public school board last week.

The vote came after nearly an hour's debate. Vaughan Trustee Donald Cameron started it off with a motion to re-establish the class.

He supported his motion with a lengthy statement on the situation and his reasons. Then he found himself opposed by the other

trustee representing the Kleinburg area, high school student James Corcoran.

Corcoran replied with a statement almost as long as Cameron's. Corcoran urged the board not to interfere with staff arrangements at the school.

Then most of the 20 trustees entered the debate or asked questions of staff.

It was explained the special class was terminated and replaced with a "remedial"

program because enrolment predictions proved wrong and the number of teachers at the school had to be cut.

There were nine students in the class. The average size for such classes in the system is nine pupils, the board was told.

When trustees insisted on an answer from staff as to whether the replacement program was as good as the original one, Education Director Sam Chapman said there was no way of knowing for sure.
