

**Command performance**

An afternoon performance by the Canadian Armed Forces Central Command Band at Don Head School, Richmond Hill, recently, captivated students there. There are some 60 members in the band.

**39ers Club raffle winners are named**

Winners of the recent King City 39ers Club Raffle have been named. They include Mrs. Ella Unterlander, 40 Keele St. S., King City (oil painting); Mrs. Mabel Hall, 211 James St., King City (wool hooked wall-hanging); Ian Warrander, Bolton (embroidered table cloth); and Tom McQueston, 72 Humber Cr., King City (electric can opener).  
Mervyn Long acted as Master of Ceremonies for the draw, calling upon Mr. and Mrs. Miller of Dalhousie, New Brunswick, visitors at the meeting, and J. Tanner, the club's first president, and M. Atkins, to pull the tickets.

**Clean your carpet faster and better with Steamex.**

**You too can measure up**

**Many joining "cadet movement"**

By ALF STONG  
MPP-York Centre

This past weekend has been very busy in terms of Remembrance Day services in the Towns of Richmond Hill and Markham.

It is encouraging in view of the situation as it exists in Canada today to see so many young people becoming involved in the "cadet movement" and thereby keeping alive the spirit of the protection of our sovereignty as so many who have preceded us had done.

The emphasis today being on the unity of our country it is most heartening to view those who attended these services as being aware of the fact that men and women gave their lives during the two world wars in the name of unity and sovereignty for their country and we shall not let their efforts be exerted in vain.

The Solicitor General has informed a Committee of the Legislature that while he does not wish to minimize the problems of racialism, and he agrees that incidents of attacks upon South Asians are increasing, he considers it unfair to expect police to solve these problems.

He expressed the view that the main problem is "in our homes, in our schools and in our work places where we, as private citizens, can let this kind of prejudice fester".

Opposition parties

have, in recent weeks, been pressing the Government to release an official legal opinion on whether or not Quebec's French Language Charter, Bill 101, is in the main constitutional.

The Attorney General this week expressed the official view that "the charter as enacted by the National Assembly is not in excess of the legal powers of the Province as a whole".

The Minister of Consumer and Commercial Relations has announced that the allowable ceiling

on rent increases without the need for appeal has been reduced from 8 per cent to 6 per cent.

This amendment was forced upon the Government by opposition parties earlier this year, and ties allowable rent increases to the Federal wage guidelines.

While he said he would not remove the provision if he returned to power with a majority, the Premier used the defeat to argue obstruction by opposition parties and dissolve the legislature.

Liberal Leader, Stuart

Smith said the Ministers of Ontario. The whole election was a farce. They spent \$25 million on a futile election".

**Thermoshell: It's more than home heat. It's help.**

**Eat you can depend on**

As a Thermoshell customer you'll get your heating oil delivered automatically. No need to call. No need to worry when the temperature drops way down.

Perhaps you've wondered how our driver knows when to deliver your oil. It isn't luck. Here's exactly how it works.

Our computer keeps track of the oil you use at all times. The daily temperatures are recorded. The computer calculates the fuel your furnace burns based on the daily temperatures, then your fuel oil delivery is scheduled accordingly.

Of course there's a built-in safety margin. So you can feel assured your home will always be warm and comfortable.

Automatic delivery—it's just one of the ways Thermoshell helps.

**Emergency Service**

It can happen to anyone. You wake up in the middle of the night feeling chilly. You check and the furnace is quiet and cold. What to do? First check that the main furnace switch is on and that the fuse is not blown. If these are not the problem and you're a Thermoshell customer, just call for Emergency Service.

We have qualified technicians on call 24 hours a day. If anyone can spot your trouble quickly and get it corrected, they can. And they're just a phone call away. Anytime.

**Emergency Service—fast help from Thermoshell.**

**Localized Computer Service**

Our computer isn't some giant machine two thousand miles away. It's small but efficient and it's right here in town. It treats you like an individual.

It schedules your deliveries so you don't have to worry that your tank will run out. If you're in doubt, just call. We'll look up your record on the computer. While you're on the phone, it will provide the information of when you last received oil and when you can expect the next delivery. The same goes if you have any questions on your account. You get individual service— instantly. We can even tell the computer to alert your driver to any special delivery problems— like flowerbeds near the fill pipe or a fierce looking but friendly dog.

The Thermoshell computer—it's right here to help you.

**Payment and Protection Plans**

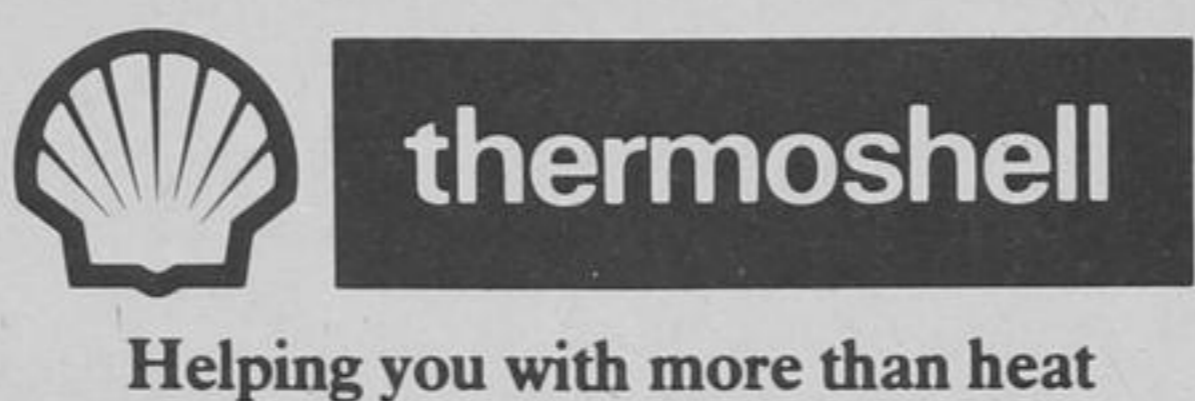

We have an Equal-Monthly-Payment-Plan that let's you space your heating bills evenly over ten months, without interest. So your budget doesn't get the goosebumps in January.

We also have the Thermoshell Comprehensive Protection Plan. It protects you against untimely furnace repair bills. For an annual premium, you are covered for replacement of most furnace parts, labour for repairs, an annual heating system check-up and no-charge emergency service.

It's excellent value. Not just for the money it could save you, but for the peace of mind it will give you.

Incidentally, in order for the plan to be valid, your furnace upon inspection must be in good working condition when you sign up for this Thermoshell service.

Thermoshell service—it's more than home heat.

**Worth watching**

Keeping a watchful eye on your meter can help you save electricity around your home—and we have a free booklet to help you do it.

It lists many wise ideas for saving electricity in lighting, heating and appliances. In addition it shows you how to read your meter and keep a record of the progress you're making in energy conservation.

The booklet, "Worth Watching" is yours for the asking from your local Hydro.

Or write to Ontario Hydro, Dept. W, 700 University Avenue Toronto, Ontario, M5G 1X6
