†Two plies for compact car compatibility; • Blackwall price; #Tread not shown **Blackwall also available

c. Steel Belted Supreme Radial

Winter radials provide as much as 80% more drivewheel snow traction than summer radials. That means extra winter driving safety. The Supreme Radial is constructed to match the characteristics of new car radials. Two steel belts atop a polyester casing plus an additional nylon cap ply for added durability. An exceptional tire. 5-year road hazard insured.

d. 2+2 Belted Polyflex

The Winter Express with BPT (Big Paw Traction). This coarse textured, resilient tread provides near stud-like grip on icy winter roads. Two polyester belts form a rigid tread face to improve stability and traction. Two nylon plies for added strength and endurance. 5-year road hazard insured.

A. 4-Ply Hiway-Byway Nylon

A giant of a tire constructed with 4 rugged plies of Du Pont 66 Nylon. Deep-molded, self-cleaning tread has sure-footed grip to get you through the worst that winter has to offer. There's plenty of strength in the laminated, corded cross-ply, yet they still ensure a soft, comfortable ride. 5-year road hazard insured.

B. Economical Bias-Ply Snow Travel

Forget about retreads... here's a much better buy in a dependable factory-fresh Snow Travel. A bias, twin-ply nylon with wide tread cleats for deep snow traction. 5-year road hazard insured.

5-year road hazard insurance applies to above tires. It insures your tires against damage caused by road conditions which render them unsafe.

No charge for passenger tire installation on most standard rims when you buy a Dill or Schrader valve at our regular price of \$1.00. We must install our new tire and valve together.

***5% DISCOUNT** For cash payment on tires in lieu of bonus coupons

Saving Solutions to cold weather car problems
