Richmond Hill targets for 1978

1978 Targets for the Town of Richmond Hill from a north end resident:

Town should aim for City status, our population is over 35,000. Door to door mail delivery wherever possible in the north end and other locations of the Town. R.R. addresses

using other than Richmond Hill within the town's boundaries should at least be R.R. Richmond Hill.

Oak Ridges post office identified as Richmond Hill Postal Station A or B or Sub Station.

Direct telephone dialing without toll charges for all residents of Richmond Hill to the

centre core of Toronto, presently available to 80 per cent of the Town's residents.

O.P.P. Oak Ridges Detachment identified as Richmond Hill Detachment. No offence to the OPP, they do an excellent job but their identification as the Oak Ridges Detachment does not help our identity problems.

Get rid of the "Richmond Hill" sign on Yonge Street in the centre of town coming from the north. I don't see a similar sign coming in from the south end. For identity why not "Richmond Hill" on the north end's water tower instead of the present "Oak Ridges".

Let's drop the "Small Town" idea presently politically battered about and take all residents into the town on an equal basis and make a success of our community utilizing the potential available. We've been within the town's boundaries since January 1, 1978.

Let's strive for a good number of affordable housing units.

One of the province's best known songs contains the words "give me a place to stand and a place to grow." Look at Richmond Hill, it's got good growth potential and should be allowed to grow.

Anything we don't like, we blame it on the fellows in the "Head Shed." There has been a good many theories expressed and a common one is we require belt tightening and a kick in the "butt". So a good kick at the political stature placed at the lower level will "hopefully" get the message up to the head shed's political heads and

may get their thinking mechanism working to realize the average citizen has reached the point where some tough decisions are necessary. Politicking with Canada's future at all levels of government is driving the country into the hands of what I call

"Do Gooders" who don't realize it but politically, they are pink and have some hard core red associates who are just waiting to see our way-of-life fall flat on its face. We need employment and production to profit and to share. In the Western World it's known

as "Progress". Yours for a better Richmond Hill.

Ventriloquist delights kids

On July 27, 1977, you did a feature story on a young ventriloquist named Laurie, who, along with her sidekick Jeremy, performs on TV, festivals and birthdays.

I thought it would be a thrill for my daughter Shauna's fourth birthday, so I contacted her in advance and arranged for her to come in November.

It was a great success and the children thoroughly

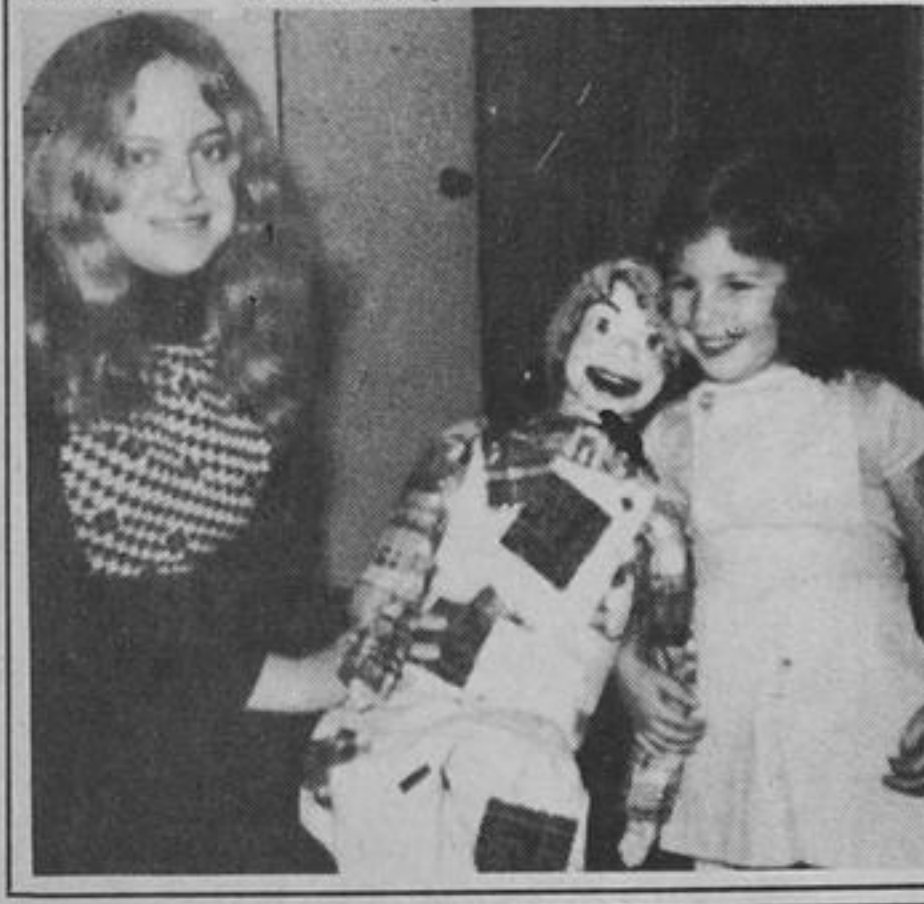

enjoyed it.

They were delighted and amazed at Jeremy's sense of humor.

I thought your readers might be interested to hear first hand from someone who has had Laurie perform at a child's party.

Below is a photo of Laurie, Jeremy and my daughter Shauna. Her smile tells the whole story.
