LEARN attracts numerous groups

Community organizations and program planners are enthusiastic about L-E-A-R-N (Local Educators Assess Regional Needs), the new Continuing Education Council for York Region.

At a recent meeting, hosted by Seneca College's King Campus, Rhelda Stockall (Helpmate Information - Richmond Hill) explained that she received "all positive feedback" from the recent LEARN - Richmond Hill meeting.

These community groups and organizations, she said, are "looking forward to meeting again."

York Region is now divided into nine LEARN areas, including all nine municipalities.

If any groups or organizations offering community programs would like to be included in future meetings, the nine area co-ordinators are: Pat Ferguson (Recreation - Aurora), Dan Shannon (Recreation - Newmarket), Gwen Patton (Information Markham), Terry Verity (Whitchurch - Stouffville Library), Helen Poulis (Help Information - Woodbridge), Rhelda Stockall (Helpmate - Richmond Hill), Steve Rockel (Recreation - Georgina), Wendy Hatley (Recreation - King), John Butt (East Gwillimbury Community Centre).

The purpose of LEARN, The York Region Continuing Education Council, is to provide a forum for the exchange of information on community programming, specific information on current programs and future program offerings.

In this way it is hoped that duplication of programs can be reduced, greater variety of programs encouraged and co-operative efforts fostered among organizations engaged in community programming.

After a recent LEARN - Aurora meeting Lloyd Morrison, of The York County Board of Education, said, "I would support continued meetings of this kind."

Sally Jones (Seneca's Off-Campus Co-ordinator), who chaired the recent LEARN - Aurora meeting, pointed to several areas of program conflict.

However, this committee wants to investigate possible areas of co-operation, either in advertising or distribution of programs, or by means of an All-Aurora programming display in local shopping malls, libraries or fairs.

Victor Gallo, of Woodbridge, discussed The Separate School Board's successful Heritage Language program which is aimed at the elementary student and offered on Saturday mornings.

LEARN - Aurora plans to meet three times a year in early January, April and September. The next meeting will be co-ordinated by Sylvia Hall of the Aurora Library.

The Town of Vaughan meeting, co-ordinated by Helen Poulis of Help Information of Woodbridge was "an interesting meeting for information sharing", Mrs. Poulis said.

Concord Recreation, Vaughan Parks & Recreation, Gwen Halliday of the Family "Y", Joyce Watson (Seneca Off-Campus Co-ordinator) and Vaughan Libraries all contributed information and program ideas at the LEARN - Vaughan meeting.

Ralph McKim, Director of Continuing Education at Seneca's King Campus, agreed that "LEARN is a very worthwhile community endeavour. We look forward to another general meeting before Fall programming begins."

If any individual or community group seeking more information about LEARN - The Continuing Education Council for York Region, please call Seneca College - King Campus (Continuing Education Department) and ask for Eileen Macrae, Program Co-ordinator.

The telephone numbers are: in Newmarket 895-1581, in Richmond Hill 884-9901 and Zenith 31200.
