OBJECT OF THE LIFE OF THE FARMER.

Is it merely to make money? We With Wisdom joined, through rhyme and prose, think not. But what then can it be says one? The object of the life of every one is to glorify Gop. How, in the case of the farmer can this best be done? Is it by going to work as it than either of these, but going simply because he is driven? Far other-John Randolph met a personal wise. We would have him drive his its driving him. If their should be a failure in any of his crops, or a blight ling it, seek a remedy, and then be a le) to apply it. To do this with success "I see," said a young lady, he must understand the sciences, such as chemistry, botany, mineralogy, entomology, &c. To possess a thorough that part which is equally, if not more important, remains untouched. The remaining two of the above mentioned A doctor returned a coat to a sciences should not by any means be

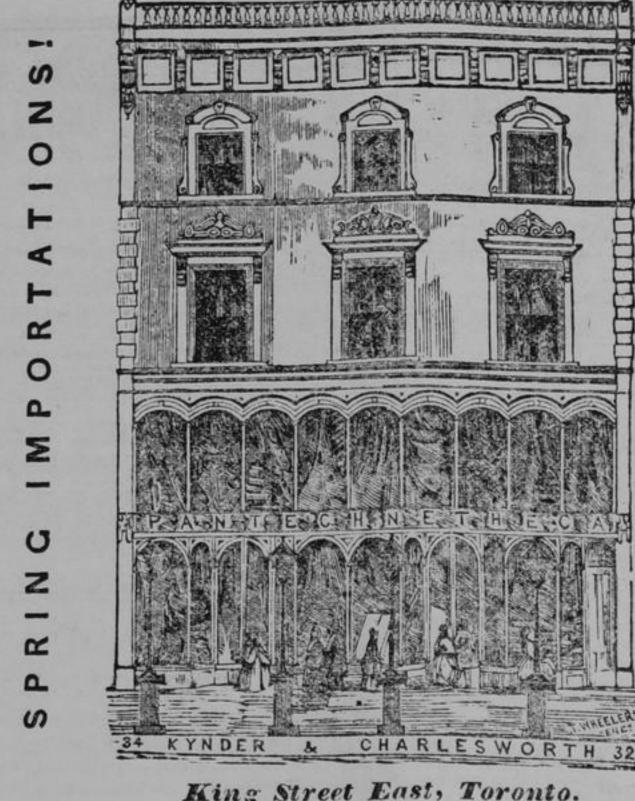

But, does any inquire how by thus tor. "Because," replied the tailor, "you doing I can glorify Gon? In the renever have any of your bad work returned searches, many things, beautifully displaying the wisdom and goodness of God, will be seen and understood, which before were hidden and unaccountable. And thus you will, having have now in Paris a diameter precisely more abundant cause, be led to praise twelve feet. Geometricians can calculate Him, and also will be able to do it in the circumference. They hold on to the a manner which is more acceptable,

DRAINING PONDS.

All farmers acknowledge the importance of draining, but all are not of the same opinion of the manner in which it should be done. The following cheap and simple method, by which I drained a large pond, may be of use acres of the surrounding lands drain their water into it. The soil is a fine The uncle of a Welsh minister loam, the subsoil sandy, except the eighteen inches of the sur ace, then a ERYSIPELAS, SALT RHFUM AND SCORlittle straw; then dirt enough to allow least thirty yards off. I have had good health. scarce, a few tiles set perpendicularly, when having to cope with the worst cases of sores. might answer. One man did all the wounds, ulcers, glandular swellings and tumors Professor Holloway has, by command of the Allied work in less than two days. It would Governments, dispatched to the hospitals of the have cost, in the ordinary method at East large shipments of this Ointment, to be used Canada Type Foundry. least \$15. to pay for the tile and putting under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer.

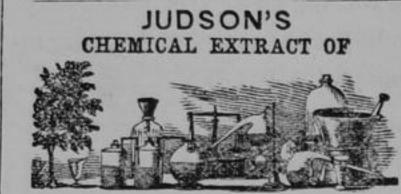

> KEEP A GOOD COW-- R NONE .-Amos Kinsley, of Januston, Chautaning account of the product of a good butter-making cow for one month, between April 25 and May 26, 1857. He says:

"Said cow is of our common breed; oway, 80 Maiden Lane, New York, and 244 ber of ladies continued standing on the medium, size; seven years old; was benches, notwithstanding frequent hints from wintered on corn fooder, the product of States, and the civilized world, in pots, at 25 cents. their patronage, in return for which the proprietors the minister to sit down. A reverend old one and a half acres, together with one 624 cents, and \$1 each. quart of corn meal night and morning, the larger sizes. and said: - "I think if those ladies stand- I had any, and when not, with water, in every disorder are affixed to each poting on the benches knew they had being stabled constantly except when she could be as comfortable out doors. young woman who lived with us (my wife being sick at the time.) who pro young minister standing behind him, and fessed no particular skill in butter-makten ounces of butter of hist quality. had'ut boles in their stockings, I'd like to is my opinion that if dairymen in general would keep one-half as many cows as they now keep, and select their best and keep them in prime order and fat-It is not your neat dress, your ten the rest, they would realize a third expensive shawl, or your pretty fingers that if not double the profit they do from attract the attention of men of sense. They the whole number. Farmers often look beyond these. It is the true loveliness | milk whatever happens to fall into their of your nature that wins and continues to hands that looks like a cow, not realizing, perhaps, that it costs just as much retain the affection of the heart. Young to keep one that makes half a pound thought on their mind. Fools may be won My cow does not give what would be by gew-gaws and fashionable showy dresses; called a large mess of milk-averaging only about 17 pounds to the milking in the best of the season, and she averages over one and a half pounds of but-
