### MILITARY EXPEDITION TO INDIA.

(From the London Times.)

It takes a long time to rise to the scale of a grand operation. By successive efforts of intelligence and resolution we are at last sending out a great expedition to India, and most of our readers will have to open their eyes before they can appreciate the magnitude of the work and its place in the world's history. Let them imagine themselves, then, on the beach of Southsea last Saturday afternoon. They would there see two immense "dipper" ships, each more than half as large again as the largest ship in Nelson's fleet, towed from their anchorage by immense steam-tugs, and each with about a thousand men on board, of whom near nine hundred were soldiers, for the conquest of our Indian Empire.

Now this is a very great affair. It is a serious call on the military resources of the country which is so much an obthe company not less than £10,000 .-There must be a loan to that amount, and is a buestion how the money shall reason for not lending our credit to the company.
