If you have children under 10, you may not be able to afford their higher education.

This is the primary purpose of this unique Plan. To help provide your child under the age of ten with a university education in the future, without placing great demands on your finances now.

With a University Scholarships of Canada Plan, you set aside small amounts you can easily meet now, that will help pay for your child's first year at any recognized university in the world. For each of the next three years, qualified students receive cash scholarships from the scholar-

ship Foundation... scholarships that are not based on academic achievement, but on passing grades only.

The younger your child is when enrolled, the less you need to set aside.

University Scholarships of Canada is a Plan for today's

parents and tomorrow's scholars. A Registered Educational Savings Plan (RESP) with built-in tax benefits for you.

Your child's higher education is in your hands. You can make it happen. Send the coupon below now and discover how.
