Learning to hustle is part of school life in Richvale

Learning how to hustle is now included in the day's program at St. Charles Garnier School in Richvale.

Students, teachers and other staff members have been following a set program of exercises set to music since October, and almost everyone loves it.

The hustle program is part of the physical education course at the school, and each day at 1 p.m. the music is played and everyone enters into a series of exercises that are both fun and good for them.

The idea to follow such a program came from some of the teachers, who had seen it done in other schools, and since the Board of Education passed approval, it was adopted and has proved a success.
