A remarkable milk product that's good for the whole family...

Becker's, Ontario's neighbourhood milk store, introduces Nu-Trish, a remarkable milk product that looks and tastes like regular 2% partly skimmed milk. **WHAT IS SWEET ACIDOPHILUS PARTLY SKIMMED MILK?** It's a delicious, fresh milk product that is homogenized and pasteurized, just like the partly skimmed 2% milk you are used to drinking — but something special has been added — the Lactobacillus acidophilus culture — a special culture developed by the Food Science Department of North Carolina State University. Normally, similar organisms are found in the healthy body. But many of us may not maintain the normal levels which, possibly, is due to improper eating habits brought on by our modern lifestyle.
