OTHER 80-200 MM ZOOM LENSES

Tokina 28mm-85mm Zoom

Through the revolutionary "4-Group-Zooming System", (patent pending), Tokina now offers serious photographers true wide-angle to telephoto ability in ONE lens. This is the first zoom lens to perform both conventional wide-angle snap photography, precise telephoto detail, and everything in between. The Tokina 28-85 Zoom lens is also surprisingly compact—perfect for travel. The length is only 92mm, and weighs 580 grams. For the first time, one lens does it all with ease and convenience: the Tokina 28-85mm Zoom.

THE NEW TOKINA LIGHTWEIGHT ZOOM WITH CLOSE/FOCUSING

COME AND SEE THE NEW LIGHT WEIGHT TOKINA 80-200MM WITH CLOSE FOCUS

RICHMOND HILL CAMERA CENTRE
