'Unit Pricing'

A useful tool for comparing prices and determining the best buy is found on most Safeway shelves.

Our display labels give you the price per ounce or gram, pound or kilogram, quart or litre as well as the conventional per-item price.

Check the figures closely. While in most cases a larger size of one product is a thrifty buy compared to a small package, occasionally the saving is minimal.

Also, unit pricing is the surest method for comparing costs on competitive items.

We've done the arithmetic for you. Look for it when you visit our stores.

Next week's Inflation Fighting Idea: "BAG IT"

together, we can be **INFLATION FIGHTERS!**
