Stong receives answers to queries

By ALF STONG
MLA - York Centre
I have recently received in the Legislature answers to my questions on the Unionville high school from the Minister of Education as well as the answers to my questions concerning the Risebrough community's request for adequate school facilities.

When, in the opinion of the York County Board of Education, there are sufficient students to warrant a new high school in Unionville, no doubt the Board will apply to the Ministry of Education for approval to build. The present forecast by the Board projects the need for a school in Unionville in 1984.

RISEBROUGH
"Will the Minister act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979."

ANSWERS
"Mr. Stong's question states that I had 'guaranteed that all further hydro projects in those areas will receive 'the full treatment' provided by the Environmental Assessment Act.'"
The full sentence in letters which I have forwarded to the Towns of Richmond Hill and Markham from which the idea was extracted is, 'I would like to assure you that future Ontario Hydro undertakings will receive the full treatment under Education for approval to the Environmental Assessment Act.'
