What promises to be one of the best and most interesting of wild life study series commences in the October issue of **ROD AND GUN** just published. The series is written by the well-known naturalist, Raymond Thompson, and the first article is a lengthy and very interesting account of the beaver. Judging by the material contained in this article, the rest of the series should prove valuable and interesting reading matter for the lover of wild life.

Appropriate to the season a number of hunting stories are included in this fall number. The regular articles and departments covering birds, dogs, outdoor life, shooting and fishing seem even better filled than usual. This is especially true of Fishing Notes, which contains in addition to the articles of Robert Page Lincoln stories by G. P. Sladen, of Toronto, goes to make a splendid section for the angler. The open seasons for game birds in Ontario are included in the issue.

**ROD AND GUN** is published monthly by W. J. Taylor, Limited Woodstock, Ont.
