## EFFICIENCY of Operation AND ECONOMY of Maintenance

Efficiency of operation and economy of Maintenance are features that have always distinguished the I. H. C. line of Farm Equipment, and yet never in I. H. C. history have the features been so prominent as at the present time.

To day I. H. C. leadership cannot be challenged

In the furthest ends of the earth, as through the Dominion of Canada, McCormick Deering equipment is establishing new records in competition with the world's best and they are sold and serviced by

### Who is away from home?

Keep the family united. If some are away from home, the easiest and quickest way is of course by a Long Distance call. The young people nowadays put up a very brave front of wishing to appear independent and self-reliant, but their hearts still thump faster when they hear Dad's or Mother's voice over the wire.

Even when they go into business, perhaps in distant cities, their nature does not change with their habitation. The tie still holds. The dear familiar voices are just as potent.

Have a regular time to call up the absent ones by Long Distance. The service was never so rapid. The cost of Interurban Service to nearby towns—within a radius of say 25 miles—is very low.
