ROGERS One Hour ENAMEL for a Colorful Week-End

A couple of cans of Rogers One Hour Enamel, a brush and a little time and you can make your week-end an enjoyable one. Rogers One Hour Enamel dries in one hour so you can redecorate a lot of different articles, such as interior wood-work in the kitchen or bathroom, odd chairs, toys, magazine racks, metal-ware, in fact, hundreds of different articles without inconvenience.

You can add those dashes of brightness so economically, too, because Rogers One Hour Enamel costs no more than other good enamels—and has that added advantage of one hour drying.

We have a complete stock of colors—there are 18 to choose from, also black and white—so drag out those articles you've so long intended to fix up and put them back into service this week-end.
