

### Bazaar Held at

The annual Bazaar under the auspices of the Presbyterian Ladies' Aid was held in the Orange Hall, Vernon, on Saturday evening, and proved most successful. Many useful and fancy articles were offered for sale, including knitting, aprons, fancy work, quilts, home cooking, candy, and small gift table, all of which were well patronized. A hot supper was served from 5:30 to 8, of which about 100 partook.

The door prizes for the evening went to the following, 1st, Mrs. Robert Dagg, of Osgoode Station; 2nd Mr. Stewart Fisher; 3rd, Mr. Lorne Campbell.

The results of the evening were most gratifying, yielding over \$90.

Science, although splendid in its achievements, a great power, and worthy of all our acknowledgements is, however, limited in its scope, and cannot sustain this infinity called life. He who would live from what he knows, and provision his being with nothing but certitudes of the so-called positive order, would perish of inanition.—Charles Wagner.

Their lips met and clung. Naturally. Inevitably.

"Oh, Rodney!" Gay whispered. He kissed her again as she came to him. Then—

"No, Gay, honey," he said huskily. "We—from the first, I haven't been able to think of anyone but you but we must not—"

### SEED GRAIN SUGGESTIONS FOR SPRING OF 1938

The Ontario Department of Agriculture has just completed a careful survey of the seed situation for the spring seeding of 1938. This survey indicates that there is now sufficient oats and barley in the province to look after the 1938 seed requirements PROVIDED, of course, that every farmer will immediately have the best of his grain cleaned and set aside for his seed. Many farmers appear to think that because their grain this year is off colour and a little under standard in weight that it will not make suitable seed, but tests already made shows that when this off-coloured and under-weight grain has been thoroughly cleaned up, it is cut in some instances, was secured which is high as 90 p.c. If this NOW the cleaned out grain is used for feed.

With this in view the Department feels that if Ontario farmers follow out some policy there will be no great shortage of seed next spring. They will have seed of known variety and origin and will not be obliged when spring comes to buy unknown seed, probably at very high prices or use weedy ungerminated feed grain.

Many farmers have a fanning mill of some description, which with a little repair and an extra screen or two, will clean grains. The correct screens, of course, are important, and should any farmer be in doubt, the Department will be glad to furnish this information on request. Where farmers live within driving and trucking distance of power cleaning plants that have scourers and carter disc machines, it will pay them to have their cleaning done at one of these plants.

What is most important is that the farmers start now so that the cleaning and germinating can be done properly and not leave it until a spring rush develops. Germination tests are slow and often more than one test is necessary for satisfactory results.

To make a germination test in your home, put a piece of blotting paper on a plate with just enough water to keep it damp. Spread a definite number of seeds, say 100 on top of the blotting paper, and cover with another piece of blotting paper. Put this in a fairly warm place, about room temperature (70 deg. F) keeping the blotting paper moist through the test. At the end of six to ten days, if it is oats, barley or wheat, count the healthy normal sprouts (not just everything that sprouts) and from this calculate the

It is a great feeling of Christmas and speaking of Christmas do you realize that but a few short weeks separate us from Christmas and the preparatory hustle and bustle of shopping. In connection with shopping did you know that The Leader advertisers have prepared their shops and enlarged Christmas and preparatory hustle that means that you can get worthwhile Christmas gifts from those same advertisers at very reasonable prices.

Why not visit their stores—give them a chance to show you their merchandise—they will appreciate your patronage. Try it.

### LETTER OF APPRECIATION FROM THE WEST

United Church Manse,  
Siltone Sask., Nov. 1, 1937.  
Dear Mr. McNaught:

I wish to take this opportunity of expressing my own appreciation and that of the community for the splendid car of potatoes and vegetables which arrived here on Friday morning and were distributed to the needy families. We also received letters from a number of donors which will receive due recognition. We tried to visualize our good friends in Eastern Canada as they brought their donations to the car. We distributed its contents as fairly as possible. All classes of people participated in the privilege. (Roman Catholic and Protestant).

Mr. Robt. Brown, our secretary, will write you more fully. He, with others, worked diligently in the distribution of the produce. I feel sure that this kindly act on the part of your people will tend to bind East and West all the more closely.

Glad to say prospects for 1938 are much more promising. We have had wonderful rains this fall and farmers are more hopeful. Of course, this is a "next year" country.

Let me wish you every blessing in
