

Burn Alberta Coal

AND HELP CANADIAN INDUSTRY

Every time an Ontario householder purchases a ton of coal mined outside of Canada he is depriving Canadian workmen of an opportunity to earn an honest dollar.

By buying ALBERTA COAL, Ontario coal consumers are assured that 100 per cent. of their fuel money is remaining in Canada, and that somewhere in Canada it is providing employment for Canadian miners, Canadian trainmen who move the fuel, and also the employees in various lines of industry which supply the necessary equipment to the Canadian mines. In the past few years thousands of Ontario householders have become permanent users of Alberta coal, because price, quality and service considered, they have found it a more desirable fuel than they formerly used.

FIGURE IT OUT

Answer to Last Week's Puzzle—Cow Sense

As the train goes two bridge lengths less one foot, while the cow goes half a bridge length, less 5 feet, and as the train would go 3 bridge lengths, less 3 inches, while the cow went half a bridge length, plus 4 feet 9 inches, we see that the train would go 5 bridge lengths, less 15 inches, while the cow went 1 bridge length, less 3 inches.

Thus the train travels 5 times as fast as the cow, therefore 2 bridge lengths less 1 foot is equal to 2 and a 1-2 bridge lengths, less 25 feet.

Hence, half a bridge length is 24 feet and the whole length is 48 feet.

SUNDAY INDISPOSITION

Morbus sabbaticus, or Sunday sickness, a disease peculiar to church members. The attack comes on suddenly every Sunday; no symptoms are felt on Saturday night; the patient sleeps well and wakes feeling well; eats a hearty breakfast, but about church time the attack comes on and continues until the services are over for the morning. Then the patient feels easy and eats a hearty dinner. In the afternoon he feels much better, and is able to take a walk, talk about politics, and read the Sunday papers; he eats a hearty supper, but about church time he has another attack and stays at home. He retires early, sleeps well and wakes up on Monday morning refreshed and able to go to work, and does not have any symptoms of the disease until the following Sunday. The peculiar features are as follows:

1—It always attacks members of the church.
2—It never makes its appearance except on the Sabbath.
3—The symptoms vary, but it never interferes with the sleep or appetite.

New Challenge Cup For Russell Curlers

Russell Curling Club, with a membership of some 70 men and 20 ladies was signally honored when J. E. Kyle, local resident, presented John Gamble, president of the club, with a beautiful Club Challenge Cup, the cup to remain in the local club and to be used as a challenge trophy among the various rinks composing the Russell Club. The holding team skipped by the president, M. W. Gamble, Leslie Lemond, Harry Slaughter and John Twiname, Jr., will hold the cup until defeated by some other rink and it is understood that the last team to win the cup at the end of the current season will have their names engraved on it.

The trophy was presented by Mr. Kyle who has been an enthusiastic curler and supporter of the local club for 25 years and he has been keenly active in the erection of the new curling rink, which was completed last year and is one of the finest buildings housing two rinks in Eastern Ontario.

DISTORTED VIEWPOINT

(Winchester Press)

The Italian newspaper Il Popolo Di Roma this week is said to have accused the United States with cowardice in connection with the sinking of the Panay by Japanese aircraft. It is just possible that both bravery and cowardice are judged by different standards in the United States than they are in Italy. For instance, we cannot imagine our neighbours to the south engaging in the conquest of a helpless nation such as Ethiopia.
