Where Apples Get Their Rosy Cheeks

Chemical Substance Called 3-Galactosidylcyanidin is Said to Be Nature's Rouge; Effect on Complexions Studied.

According to chemical tests carried out by the United States Department of Agriculture, it is not rouge that puts the blush on the cheeks of apples, but a chemical substance that sports the awe-inspiring title of 3-galactosidylcyanidin. If an apple merely has 3-galactosidylquercetin it is usually yellow in appearance, but 3-galactosidylcyanidin is the stuff that makes one of those nice red skins you love to crunch. The tests have shown that this substance is present in yellow apples of the Grimes Golden variety, but it is not identical with or responsible for the yellow color of the skin. In red apples the unseen coloring matter is acted upon chemically and changed to red idaeln, which is a simpler name for 3-galactosidylcyanidin. They have not yet identified the conditions that cause this change from yellow to red.

Color is Important

Color in apples is important to growers and to consumers. For the grower there is the practical advantage that well-colored apples are not nearly so subject to injury by storage scald as are apples in which the color is imperfectly developed. Buyers have a decided preference for well-colored apples, whether they are yellow or red.

MAKE YOUR LIVER Produce its bile

Your liver has a big job to do. Make it do what it is supposed to. Its job is to produce 18 to 36 fluid ounces of bile every day and send it through the system. If it falls down on its job you suffer. AND HOW? The most effective stimulant for the liver known to medical science is calomei, which in small doses is of the highest use in congestive conditions, especially those due to over-eating, over-indulgence in alcohol, lack of exercise, etc. Tanol Tablets contain a certain proportion of calomei, blended with cascara and other medicines. They are mild and harmless. But your liver understands and takes the hint. For sale at all druggists, 50c. (B)

and are willing to pay higher prices for them. There is good reason behind the preference. For the consumer, good color is a practical and easy guide to selection of good ripe fruit. The chemical changes that are essential to the formation of good color are the changes that are also required to bring fruit to maturity and to develop flavor, aroma, and palatability. This research does not compare the merits of yellow apples and the apples. It does bear out the popular idea that to be good, red varieties ought to be red and yellow varieties yellow.

HAVE YOU HEARD

Somewhere she lies across a bed. Her frail form shakes with sobs. Through weary months she searched for work — but there weren't any jobs. Her empty arms prove life is cruel. Though young, she's lost all dreams. She's not to blame—for circumstance tossed her into its schemes. A thing that promised her deep joy brought horror, unbelievable. They've torn her baby from her arms — a crime that's inconceivable! While—through mere lack of money—scenes like this are authorized, Each day throughout our land — how can we think we're civilized? —Lyla Myers

Two persons were having lunch at a farm. The farmer's wife cooked a couple of chickens, saying that the family could dine on the remains after the visitors had gone, but the hungry ministers ate them all. Later the farmer was conducting his visitors about the place when a rooster began a lusty crowing: "One of the Ministers — 'Seems mighty proud of himself.'"
Farmer (growling) — "No wonder. He has two sons in the ministry."

CORRECT THIS SENTENCE: — "John lets me charge everything I wish," said the carefree wife, "so I never buy anything unless I need it."

Professor of English—"Correct this sentence: 'Girls is naturally better looking than boys.'"
Pupil—"Girls is artificially better looking than boys."

READ IT OR NOT—A horse has no eyebrows.

A man with a big wart on his chin dropped into a doctor's office to have it removed. When he failed to return for additional treatments, the doctor phoned him to ask how the wart was getting along. "Just fine," replied the patient. "My face is gone, but the wart is still there."

Nell—"I hear that you and Elmer are engaged. I don't suppose he told you that he was engaged to me last year?"
Bell—"Well, dear, he did say something about there being things in his past he was ashamed of, but he didn't go into details."

The mother-in-law joke is overdone. Ever notice that when there is sickness in the family, the first person sent for is the wife's mother?

A golfer was driving off about a foot in front of the teeing mark. The club secretary happened to come along: Club Secretary (Indignantly) — "Here! You can't do that. You're disqualified!"
Golfer—"What for?"
Club Secretary—"You're driving off in front of the mark!"
Golfer (tersely)—"Away with you! I'm playing my third stroke."

The mills of the gods grind slow. And that's also the way the old head works when you're trying to think up a snappy retort to somebody's wise-crack.

Bunkers Herbal Pills for PILES

Your MONEY BACK if not relieved. Bunker's Herbal Medicines, Toronto 9, Ont., Can.

Issue No. 4-'38

A-C

Along Canada's Mining Highway

From coast to coast the aggressive expansion goes on—bringing results that indicate another new record of production for 1938.

The Province of Quebec is the scene of great activity. East Malartic Gold Mines, now developing underground, shows definitely a "big mine" outlook. Adjoining on the east, the Rand Malartic property reports good diamond drilling results. On the Lacoma property in Tavernier township exceptional results are reported from first new work underground. The East Lacoma people are planning diamond drilling. In the west section of the Province, Powell and Beattie show healthy development.

In the Larder Lake district of Ontario, great activity is apparent. At the Barber Larder property mining plant

is being installed preparatory to underground development of the extensive orebodies indicated by diamond drilling. Fernland is preparing for shaft sinking. Kerr Addison continues development on a large scale. Martin-Bird is shaping up well, with important new ore developments in the west section.

Kirkland Lake Gold, Pamour and Buffalo Ankerite receive much favourable comment in the older mining districts. Albany River and Uchi are looming up importantly in the Patricia district.

Alberta reports much good news, indicating this Province as a potential big source of oil supply for the British Empire. On the west coast of Vancouver Island a new camp is causing some excitement. Bralorne and Ymir Yankee Girl report favourable developments.

Money Spent Was Boon to Industry

\$61,000,000 Spent By the C. N. R. During 1937 From Almost Ten Thousand Canadian Firms.

Purchases made by the Canadian National Railways during 1937 amounting to over sixty-two million dollars from approximately ten thousand Canadian firms assisted very materially in bringing various branches of Canadian industry back to normal conditions, R. C. Vaughan, Vice-President in charge of purchases, stores and steamships, stated in an interview at Montreal last week in which he reviewed the year's activities of his department.

"We expended considerably more for the purchase of material and supplies in 1937 than in 1936," Mr. Vaughan said. "That was necessitated by the increased business handled, which required the running of more passenger and freight trains to meet the needs of increased traffic. Consequently, more fuel was burned and a larger quantity of train and other supplies were used."

"Our shops were also operated to greater capacity during the year, which was necessary to meet the equipment requirements of the railways, and, therefore, more material was required for that purpose."

Fifty First-Class Coaches
"Our total purchases of material in Canada in 1937 approximated \$62,506,000. Of that amount approximately \$15,140,000 went for new equipment, and \$11,216,000 for Canadian fuel used on our locomotives and in our boiler houses, stations, coaches, etc. Approximately 315,700,000 feet of forest products were bought in Canada by the Canadian National Railways in 1937, which consisted of materials for construction and repairs to equipment, buildings, etc. Of that quantity 225,700,000 feet are represented by track ties."

During the year the following new equipment was delivered to the National System by car builders in Canada, Mr. Vaughan announced. Fifty first class coaches; 10 mail and express cars; 2,665 box cars; 49 flat cars; 15 ballast cars; 30 and cars; 300 gondola cars; and 175 freight refrigerators. In addition, 125 freight refrigerators were built in C. N. R. shops.

Air-Conditioning to the Fore
"During the year we had a heavy air-conditioning programme in connection with our passenger cars, and 126 cars were air-conditioned," Mr. Vaughan added.

"In 1937 there was a substantial increase in the price of some lines of material, but we are hopeful that there will be recessions in price during the year."

"The expenditure by the Canadian National Railways of such large sums of money in Canada has meant many million man hours of work for our Canadian citizens and has done much to assist various branches of Canadian industry back to normal conditions."

We all feel this way at times: Physician—"Are you ill? Let me see your tongue, please."
Patient—"It's no use, doctor. No tongue can tell you how bad I feel."

HOW'S YOUR STOMACH?

YOU lose vital nerve force if you allow your stomach to distress you. Dr. Pierce's Golden Medical Discovery is a dependable tonic which will increase the appetite, eliminate waste from the intestines, stimulate the digestion, and you thereby gain strength. Mrs. Nellie Winegardner, 407 Main St. W., Hamilton, Ont., said: "Dr. Pierce's Golden Medical Discovery was very beneficial to me. It helps the digestive system, relieves me on the stomach and acid indigestion. When one has no appetite and feels tired and upset the 'Discovery' is very helpful." Buy now of your nearby druggist. New size tablets 50 cents, liquid \$1.00. Large size, tablets or liquid \$1.35.

Passenger Traffic Is Up 15 Per Cent.

C. N. Railways Vice-President Reports Volume of Freight For Year 1937 Also Tops 1936 Figures.

MONTREAL, Jan. 11.—The volume of freight and passenger traffic carried over lines of the Canadian National Railways during the past year shows a considerable improvement over that of 1936, Alistair Fraser, Vice-President in charge of Traffic, stated in a review issued here last week.

"The year 1937 was one of steady progress in the volume of freight traffic handled, as well as changes and improvements effected in our service to the public," said Mr. Fraser. "While there was a heavy falling off in grain shipments, resulting from the very light crop in parts of Western Canada, this was more than offset by the improvement in general business, resulting in an increase in freight tonnage handled of approximately ten per cent. over that of 1936."

Progress in Mining Development
"Mining developments in North-western Ontario and Quebec have shown remarkable progress during the past year. The opening of that portion of the Canadian National Railways' new Senneterre-Rouyn line from Senneterre to Val d'Or on November 29 provided much-needed rail facilities to the numerous mines located in that area."

Increased 15 Per Cent.
Mr. Fraser stated that passenger traffic on Canadian National lines had shown an increase of fifteen per cent. during the year. "Increase in train travel generally resulted from the upward trend in spending power that was noticeable during the greater part of the year," he said. "Frequent low fare excursions between Canadian cities and towns, and to points across the international border, brought hundreds of thousands of people to the railway for short coach trips. Good progress was made in the air-conditioning of our passenger equipment. We have had air-conditioned standard and tourist sleeping cars, dining cars, compartment, observation and library cars, parlor cars, buffet club coaches and lounge-buffet cars in service for some time. By the purchase of fifty air-conditioned first-class coaches of the latest design during the past year, we have attained the objective of having all principal main-line trains fully air-conditioned."

VILLAGE EVENING

Twilight, and the tide returning Back to the arms of the azure sea: Sunset, and the first star burning Deep in the depths of immensity.

Nightfall, and the last of gloaming Lingered along the old lake shore; Evening bell, and a late herd homing, And a woman framed in a cottage door.

THE SOLID FUEL FOR SOLID COMFORT

Listen to "THE SHADOW"—Every Wed., CFRB, 9 to 9.30 p.m.

A COAST-TO-COAST "SMOKE-UP"

Wise roll-your-owners will tell you Ogden's is the feature of the smoke-employment programme. They know that finer flavour and cooler, smoother smoking are assured—every time—with Ogden's Fine Cut and "Vogue" or "Chantecler" papers.

And there's a bigger 15c. package of Ogden's, now!

OGDEN'S
FINE CUT

The knotted spiral nebulae thrown off by the sun in the formation of the solar system began drawing the outer particles, or planetesimals, to them. Thus the earth grew after it first was formed.

The first 19 years are the noisiest.

A MISTAKE TO WAIT WHEN "ACID INDIGESTION" STARTS

CARRY YOUR ALKALIZER WITH YOU ALWAYS

The fastest way to "alkalize" is to carry your alkalizer with you. That's what thousands do now that genuine Phillips' comes in tiny, peppermint flavored tablets—in a flat tin for pocket or purse. Then you are always ready.

Use it this way. Take 2 Phillips' tablets—equal in "alkalizing" effect to 2 teaspoonfuls of liquid Phillips' from the bottle. At once you feel "gas," nausea, "over-crowding" from hyper-acidity begin to ease. "Acid headaches," "acid breath," over-acid stomach are corrected at the source. This is the quick way to ease your own distress—avoid offense to others.
