The above things should take her a long way along the glorious and sac-

rificing profession she has chosen. We of The Leader wish her well and want her to know that we appreciate her work in the past and will follow her through the years of training to her ultimate success as a Reg.N.

In regard to the notice for correspondents we would suggest that those who have a sincere desire to further and show appreciation of the doings of their community write to The Leader or visit the plant sometime in the near future. If writing a letter please address it-
