TRAVEL MADE HIM CONSTIPATED

Saleman Says Kruschen Keeps Him "On His Toes"

"I am a commercial traveller," writes a correspondent, "and due to endless travelling by train and automobile I find that I become constipated if I do not keep myself internally clean. Kruschen Salts is the only thing that will do this effectively and not interfere with my work. I take a large dose of Kruschen every Saturday night and on Sunday, when I have no work to do, the Salts act on me. On week-days I take a small dose on rising. It is necessary that I be 'on my toes' all through the day, and this is the only way that it possibly can be done."—V.L.

Kruschen Salts is an excellent recipe for maintaining a condition of internal cleanliness. The numerous salts in Kruschen stimulate your internal organs to smooth, regular action. Your inside is thus kept clear of those impurities which, when allowed to accumulate, lower the whole tone of the system.

HATCHERY BRAY CROSS-BRED CHICKS ARE hardy, fast-growing birds. Hybrid vigor. Pullets lay early and make heavy layers of extra large eggs. See catalogue. Bray Hatchery, 130 John St. North, Hamilton, Ontario.

345 BRAY WHITE LEGHORN PULLETS laid 127 eggs per day in September, 214 per day in October and 245 per day in November for Mr. C. W. S. last year. See catalogue. Bray Hatchery, 130 John St. North, Hamilton, Ontario.

MR. L. M. raised every one of his 300 Bray White Wyandottes last year. His cockerels averaged 4 to 4½ lbs at 12 weeks old. See our catalogue. Bray Hatchery, 130 John St. North, Hamilton, Ontario.

SPECTACLES

TANNING

EXPERT TANNING OF HIDES FOR harness, lace and tags. Towne & Sons, Merriton, Ontario.

READ IT OR NOT! The average American man is five feet, 8 inches in height. The average woman, 5 feet 3 inches and weighs 118 pounds.

The four-year-old boy, perched on his father's knee in the crowded bus, looked hard at the stout, gaudily dressed woman as she bustled in and edged herself into the only seat left.

Little Boy (loudly) — "Mother, it's a lady!"

Mother — "Hush, my dear, we know it is."

Little Boy (looking puzzled) — "But mother, you just said to Dad, 'what on earth is this object coming in.'"

Socialist Father — "What do you mean by playing truant; what makes you stay away from school?"

Son — "Class hatred, father."

THE BEST WAY When you have done the best you can, And things continue looking blue, Just hold your head up like a man — There's really nothing wrong with you.

You'll get your break, it can't be long Before the clouds will show the blue; If you keep on, the best you can, There's really nothing wrong with you.

It costs a lot to live these days, More than it did of yore, But when you come to think of it, Isn't it worth a whole lot more?

Give a woman something to argue about and she will be happy.

Plans Parachute Leap From Six Miles Up

JOHANNESBURG.—William Kerr, 33-year-old commercial traveller of Springs, Transvaal, who holds the Empire record for a parachute descent with a jump of 22,395 feet, is preparing for an attempt in March on the world's record of more than six miles.

He is undergoing a rigorous course of training to prepare himself for the bitter cold and rarefied atmosphere

of the stratosphere.

Indications are that there will be a

valuation. A strong revival of the whole area is indicated.

Favourable diamond drilling results have been obtained on the Cheminis property of Larder Lake and on the Lacoma property of Tavernier Township, Quebec. Intensive diamond drilling is becoming more and more the method of preparation for important mine development.

he will encounter at great heights.

Kerr trains at night after finishing his work which takes him all over the Transvaal. He carries with him a special electrical machine with which he is able to expel the air from his room and create a rarefied atmosphere.

He pulls on his fly-suit, cap and gloves and places a special oxygen apparatus in position before expelling the air.

Penguin in Zoo Is Hatching Egg

Molly and Moe await an event next month that will make history — the first hatching of a penguin in a zoo on this continent.

Excitement ran high at the Washington Zoological Park, when attendants reported "Molly has laid an egg" the first penguin egg ever laid at the zoo.

That was three weeks ago; Molly and Moe began building a nest. When the last straw had been put in place Molly sat on the nest and Moe went over in a corner to wait. The incubation period is believed to be about thirty days.

The prospective mama and papa take turns sitting on the egg, he said. Moe sits on the egg half of the time, and being a considerate husband, he works the night shift. When one is sitting the other stands guard to keep away other penguins.

Canada Is Using Her Own Tobacco

Imports Decline — Exports Amount to 15 P.C.—Increase Forecast.

Dr. N. T. Nelson, Agriculture Department expert, last week told a conference of tobacco officials in the department that Canada's most important tobacco market is domestic and that 85 per cent. of the crop in this country is marketed at home.

Dr. Nelson, chief of the tobacco division of the department's experimental farms branch, estimated the 1937 crop was worth \$17,000,000 and contrasted it with that of a decade before which had a farm value of \$6,813,221.

Cigars 71 Percent. Domestic He said that 15 per cent. of the nation's tobacco crop is exported, chiefly to the United Kingdom, and that with further improvement in quality and assurance of supply exports could be increased.

In recent years, he continued, a considerable decline has been noted in Canadian use of imported leaf. In the decade following 1927, he said, Canada's imports of tobacco leaf declined from 18,500,000 pounds to 2,500,000, because domestic manufacturers recognized the improvement in the home-grown leaf, due largely to efforts of the tobacco division.

Canadian-made cigars now contain 71.7 per cent. domestic leaf, Dr. Nelson said, while cigarettes contain 75.9 per cent. and smoking tobacco 85.8 per cent.

A Greater C.N.E. Hoped For 1938

Fine Agricultural Show This Year Is Predicted

Hon. P. M. Dewan, Ontario Minister of Agriculture, predicted in Toronto last week at the luncheon of the Canadian National Exhibition Association, that the 1938 Agriculture Show would be the best on record.

He pointed out that the attendance last year was considerably cut down by the infantile paralysis epidemic. Indications are that there will be a

Along Canada's Mining Highway

As a result of outstanding diamond drilling indications, first on Hardrock and then on the adjoining Macleod Cocksutt property in the Long Lac Camp of Western Ontario, market valuations of the shares of these companies have increased in aggregate value approximately ten million dollars. Other companies in the area were also beneficially affected in market

valuation. A strong revival of the whole area is indicated.

Favourable diamond drilling results have been obtained on the Cheminis property of Larder Lake and on the Lacoma property of Tavernier Township, Quebec. Intensive diamond drilling is becoming more and more the method of preparation for important mine development.
