

RUSSELL FIRE DEPARTMENTA BIT OF HISTORY -

"La France Porcupine Steam Boiler" - that was the name, believe it or not, of Russell's first factory-built fire engine. A soda and acid 60 gallon tank on steel wheels, the machine was ordered before the Great Fire of June 9, 1915 but unfortunately did not arrive in time. Built before 1900, the old machine served the community until 1952, when a mobile Seagrave Fire truck was purchased. The old pumper may be seen today at the corner of Carling Avenue and Richmond Road in Ottawa.

BOTTLE DRIVE

(a) Russell Minor Hockey Association is going to have a "BOTTLE DRIVE" on Saturday, November 1, 1975. Please have your bottles ready for the boys when they arrive at your door, either Saturday morning or afternoon. The proceeds of the bottle drive will help defray our operating expenses.

HOCKEY NEWSCARLETON-DUNDAS LEAGUE

(b) League play is expected to commence around mid-November.

HOUSE LEAGUE ACTION

(c) The "pee wee" division starts their house league operation this Saturday morning, October 18th. Come out and support the boys.
