Legion News

Branch 372, Royal Canadian Legion, Russell Branch, tips their hats to the Branch Ladies' Auxiliary who on the 18 of May, just past, were awarded a plaque by their zone commander in recognition of the work and effort displayed by them during the past period of time. Congratulations Ladies. Keep up the good work.

May 14, saw elections at Branch 372, Russell Legion. The new slate of officers are George Nielsen, President; Dick Morrow, 1st Vice-President; Frank Riggins, 2nd Vice-President; Bob Wright, Secretary, and Jim Wynn, Treasurer.

May 5 resulted in a few smiles and chuckles when the Branch held a Ham and Turkey Draw in

an effort to raise money to assist the Russell Boy Scout Troup. Winners in this draw were Linda McMahon, Crysler; Helen Morrice, Russell; R. LaPlante, Vars; Robert Morrice, Russell; Louise Crispin, Carlsbad Springs; Francoise Lang, Limoges; Jean-Louis Larabie, Templeton; E. Campbell, Russell; Garry Farmer, Aylmer; May Houle, Ottawa. Congratulations winners. Thank you for your support and good eating.

June 17 will feature our last dance of the Spring. Hector Deguire will supply the music supported by this able group. Only \$2.00 gets you in for an evening of real fun.

Support your legion, so we can support our Vet's.

Those Pesky Mosquitos

Research by the U.S.D.A. shows that men are more popular "snack bars" for these pesky flying swordsmen than women. Even when the most effective of repellents is used, women enjoy the advantage for the protection much longer.

How about yard repellents? How effective are they? If you plan to use one of the devices that uses smoke or fumes to discourage these "uninvited guests" from attending your next barbecue, locate your party

directly downwind from these gadgets. They will be up to 70% effective. The flat coils that you ignite may work even better if you use enough of them, and if they are used when the air is calm.

When you buy such outdoor bug-discouragers, look for the Environmental Protection Agency's registration number. This indicates that the manufacturer has proved at least a certain degree of effectiveness for the product.

Our apologies for not getting this in the May issue
