

Ralph Anderson & Mr. Sheppard made the very realistic guns, masts & funnels visible on the deck while Bill Sebeslav, painted in the very realistic waves round the ship the portholes, & anchor and other ships details.

Donated by The Page Hersey Co., Ltd and 88 foot Flag Pole has been erected at some distance in front of the ship by structural steel workers of Frankel Bros Toronto assisted by men of the Local Hydro.

Mrs. Trapnell Pres. and the Ladies of the I.O.D.E. are presenting a large flag for it at the dedication.

Still bursting with energy Len Washer and his committee are working up to the last minute landscaping the grounds in Kinavy Park and putting everything in ship-shape order.

With the job still lacking the final details and time at a premium, the Kinsmen Club and it's Sea Cadet Committee found time however to say "thank you" to all the citizens of St. Catharines who helped in this project in the form of a party on the ship during the evening of Sept. 23rd. The City Council, The Kinsmen Club in a body, Pres. Lloyd Spalding, Ontario Division Navy League of Canada and Lieut Padmore, R.C.N.V.R. were present. Even the refreshments for the party were donated by enthusiastic store owners. Thanks also went to the Men of the N.S.&T.Ry. and the Welland Canal.
