

Druella Acantha Malvina's Column

Think of it:

Behold the turtle! He makes progress only when he sticks his neck out!

Just a chuckle:

The minister had been invited for dinner. Afterwards he told his hostess, "That was a wonderful meal. It isn't often I get treated to such a repast that we just had."

One of the sons of the household replied, "Neither do we."

Kitchen Tip

If you are reheating frozen soup, sometimes it will scorch before it is all thawed. To prevent this, allow a little more time and place your container of soup in a fry pan or large kettle with some water in it.

Quick and Easy Sauerkraut

Cabbage sliced thinly (2 lb. per quart volume)

1 1/2 salt per lb. (do not reduce)

1 teaspoon spices per lb. (you may use any combination of caraway seed, celery seed, dill seed, mustard seed, juniper berries)

Place cabbage and salt in a crock or plastic container (do not use metal)

Pound with potato masher or wooden mallet until juice covers cabbage. Add spices. Cover with clean cloth, place plate on top and put a weight on this to keep the cabbage under juice. Refrigerate. Change cloth and skim surface whenever needed during fermentation process which takes 4 to 6 weeks.
