

THE COUNTY CIDER CO.

An Estate Winery
Specializing in Hard Ciders

Our Story

In the tradition of fine British cider makers and European wineries, we invite you to our family farm, for a distinctive taste of the County

For over twenty years our carefully tended orchards have taken full advantage of Prince Edward County's unique climate and soil conditions to produce apples of unequalled flavour and quality.

Sunny autumn days and cool fall nights combine with onshore breezes to concentrate the exceptional qualities and varietal flavours of our late harvest apples.

In a strict adherence to uncompromised quality, the apples used in making our cider are carefully selected and blended.

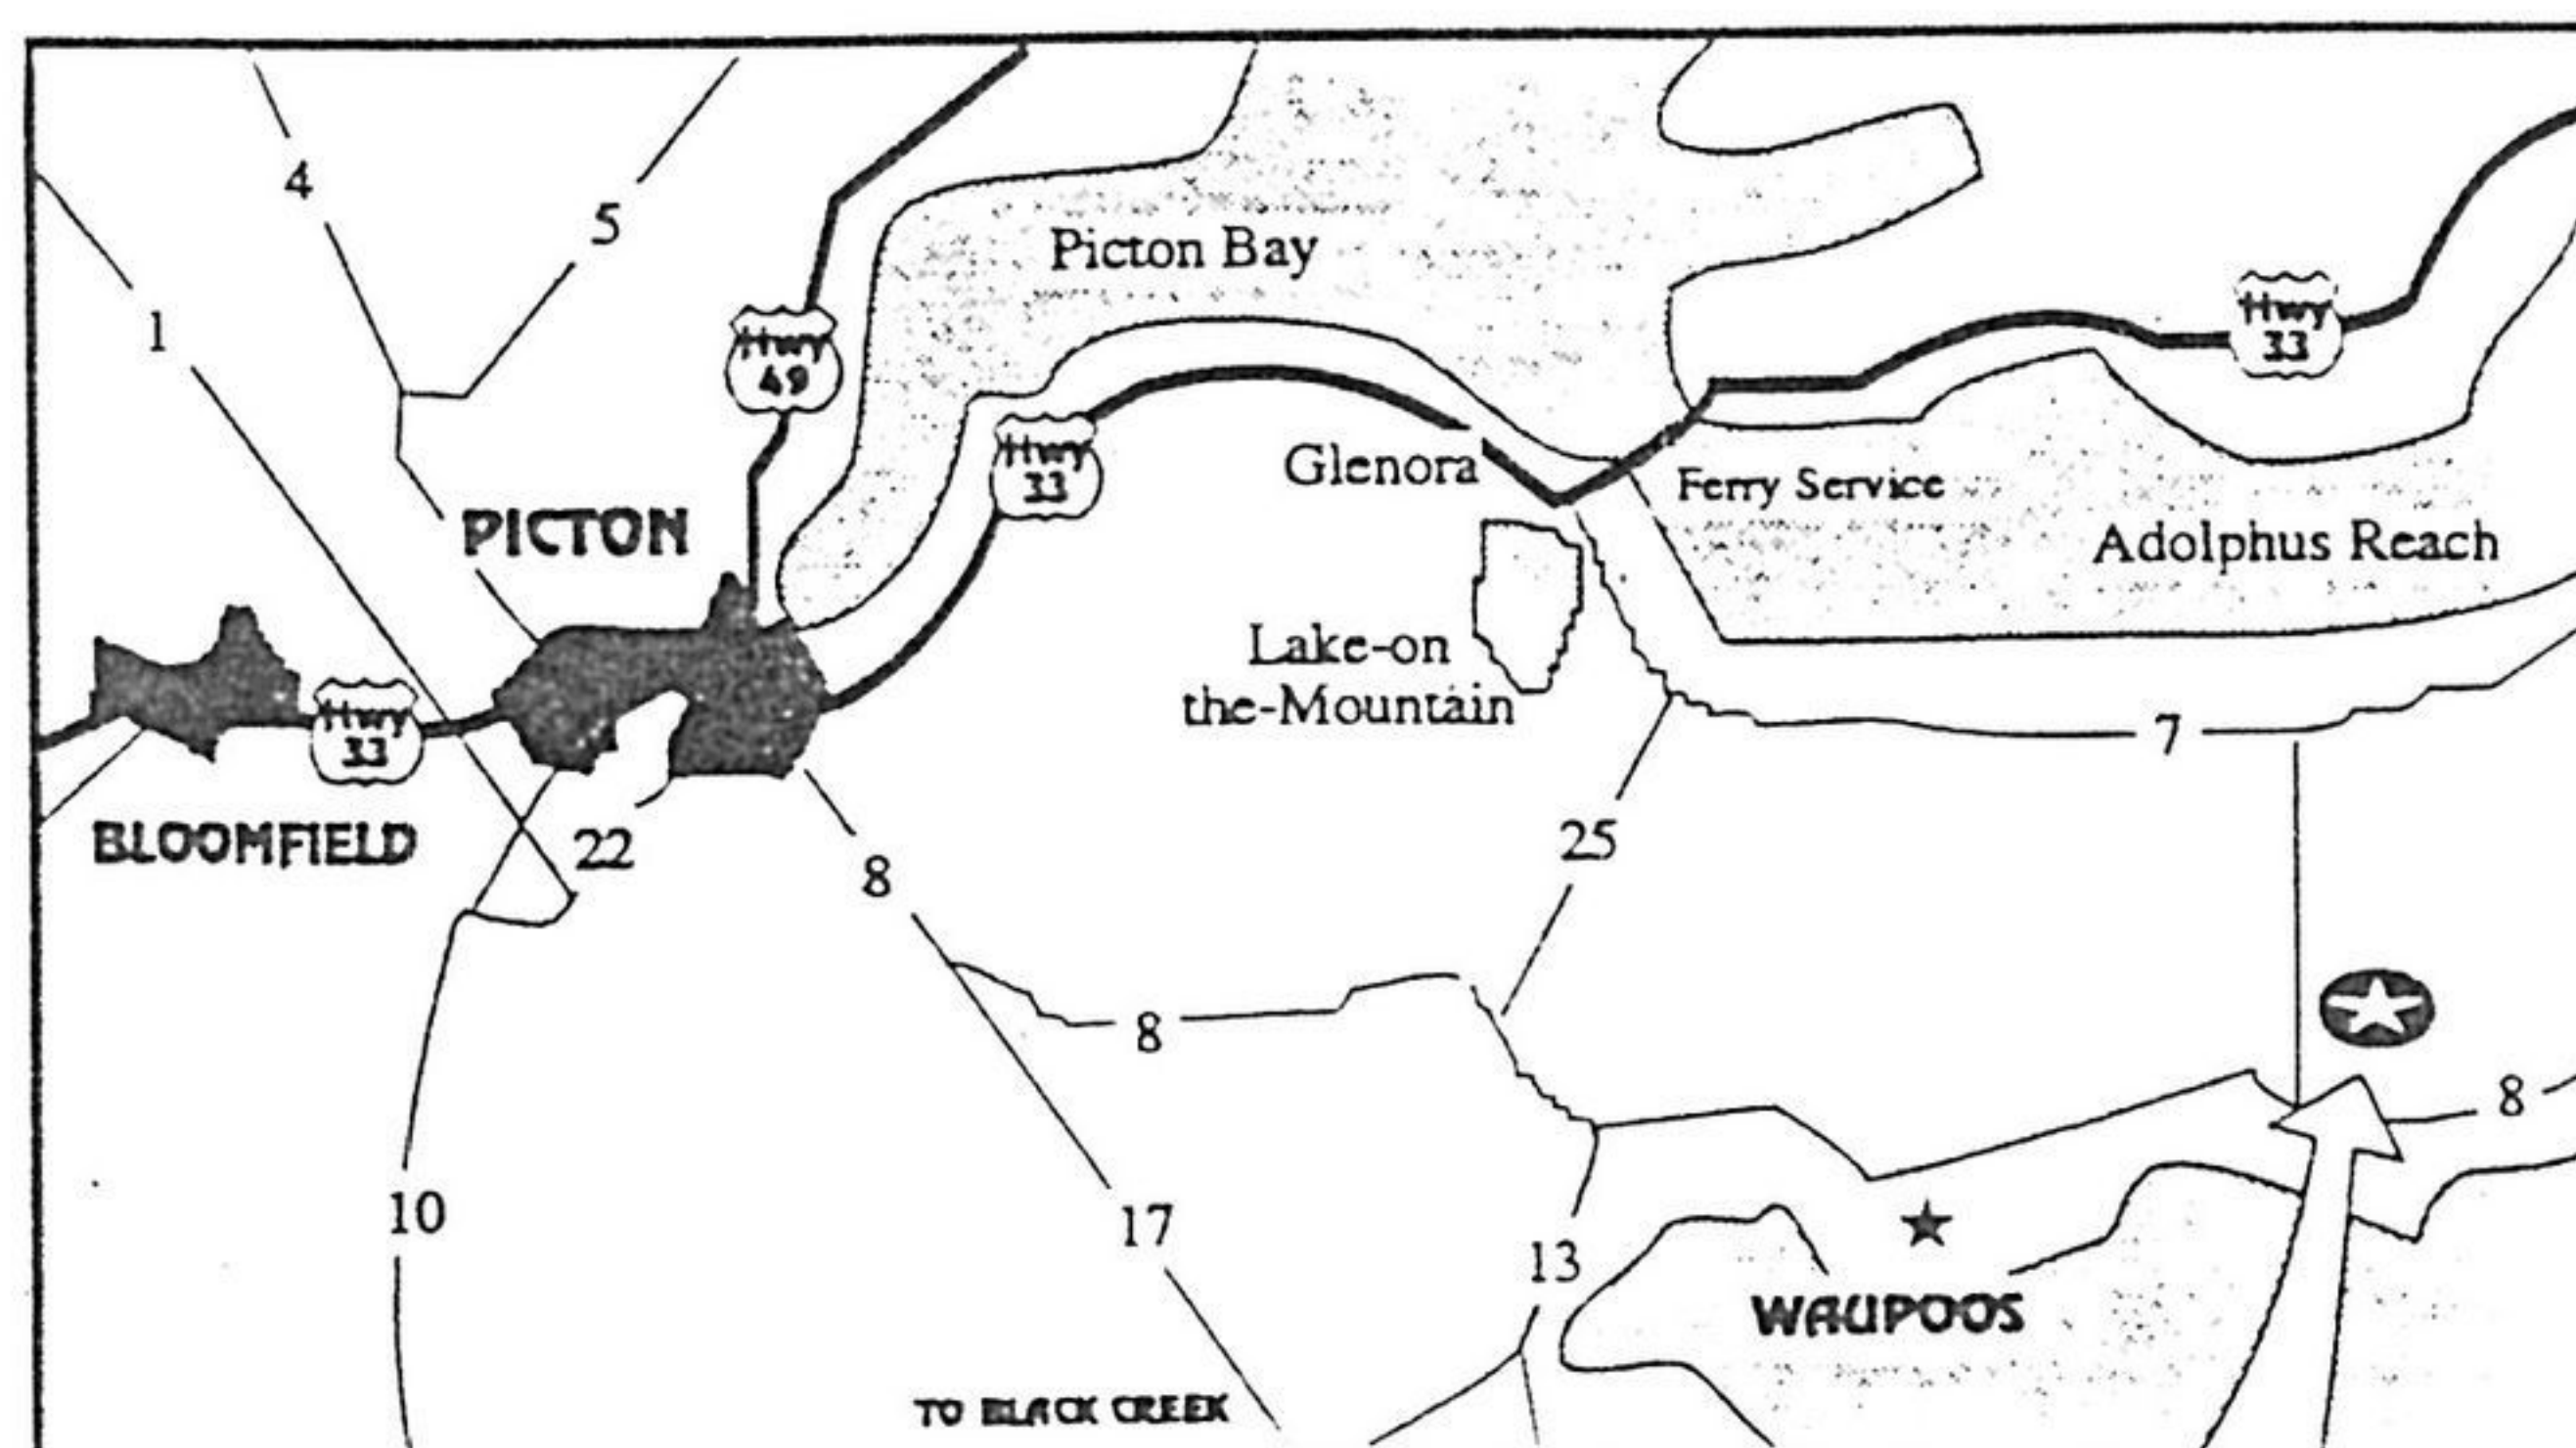

THE RESULT: A hand-crafted sparkling cider that is flavourful, refreshing and a natural alternative to beer and wine.

*On A Clear Day
You Can See Forever.*

Consider this your invitation to visit our Tasting Room. Located at our heritage home, poised high atop a stone ridge, it offers visitors a spectacular view of South Bay, Waupoos Island and the surrounding countryside.

Tasting Room

The Retail Store and Tasting Room are open seven days a week from 10-6 p.m. from May through November.
