Gem Of The Month - Most problems don't exist until a government agency is created to solve them.

## Did you know?

Cuticle remover will REMOVE grass stains, vegetable stains, nicotine stains and grease stains from your hands. Pour some on, rub your hands together, let stand a few minutes and wipe on paper towel. Then wash as usual.

Before burdening other people with your troubles, remember: Half the people you tell aren't in the least interested and the other half are delighted that you're finally getting what you deserve.
