

**THE
MILFORD BISTRO
PRESENTS
THE FIRST
"DINNER & LECTURE"
SERIES FEATURING A
COUNTY MARINE
HISTORY PRESENTATION**

Suzanne Pasternak will launch the "Dinner & Lecture" series at the Milford Bistro & Gallery on Saturday April 26.

"Vanishing Legacy" is a multi-media presentation tracing the history of the original families in South Marysburgh from 1784 to the present and their unique relationship to Lake Ontario. Suzanne Pasternak has devoted over 15 years researching the rich marine history in the area. This research has resulted in two award winning television documentaries and two historical folk operas. "This presentation will combine a slide show, lecture and music," says Pasternak. "I received a grant from the Prince Edward County Community Development Corporation three years ago to develop this lecture and present it to every school in Prince Edward County. I have a knack for turning history into something interesting and entertaining. Plus, folks get to dine on my famous braised short ribs before the lecture!" says Suzanne.

"This is the beginning of a series of lectures that will be held over the spring," says Bistro owner Cheryl Weaver, "The intimacy of the room really lends itself to that kind of show."

Donations will be collected that evening for the Mariners Museum in South Bay.

**Special Events at the Bistro
Vanishing Legacy - April 26
