Gem Of The Month - - Behold, how good and how pleasant it is for brethren to dwell together in unity.

News from Medicine - Did you know that germs can help keep us healthy? The body's defenses develop normally only when they have invaders to respond to. Lacking them, the immune system turns against healthy tissue, causing allergies or conditions like inflammatory bowel disease. Hard as this may be to accept - pinworms have been drastically reduced in children causing the bowel infections to increase. (Reader's Digest)

After party, a local man was in no shape to drive, so he wisely left his car and walked home. As he was walking unsteadily along, he was stopped by a policeman.

"What are you doing out here at 2:00 a.m.?" the officer asked.

"I'm going to a lecture," the man said.

"And who would be giving a lecture at this hour?" the cop asked.

"My wife", the man replied.

Kitchen Tips -

- (1) To prevent mildew in your refrigerator, wipe with pure vinegar. The acid kills the mildew fungus.
- (2) A little vanilla poured on a piece of cotton and placed in the refrigerator will eliminate odors.
- (3) For water spots on windows, soak a cloth with vinegar and rub the glass hard. The spots disappear and the window looks shiny again.
- (4) When something spills over in the oven, sprinkle with salt immediately. When the oven is cool, remove goop with pancake turner.

A bell is no bell till you ring it,
A song is no song till you sing it,
And love in your heart wasn't put there to stay,

I argue very well. People know this and steer clear of me at parties. Often as a sign of their great respect, they don't even invite me.
