Magic in a Beer Can - Cont'd from page 5

good. In the morning he asked (nay, begged) for another shot and it miraculously cured his cough. We'll see if he lives. I give him two weeks.

Euell Gibbons, the author of "Stalking the Healthful Herbs", says that coltsfoot tea with a bit of honey is delicious and good for you. I tried it, but couldn't find the honey so used "Equal", a sugar substitute. The resulting concoction made my heart race a little bit, though that may be because of a long touchdown pass thrown by the Argos quarterback while I was drinking it. I can't see how Euell can recommend coltsfoot tea. It tastes like drinking tea tainted with barn straw, out of the rotting skull of a monkey, with the rancid aftertaste of sheep manure. I'm not giving up. When I get some honey, I'll try it again. I'm sure the readers of The Mirror are breathless with anticipation.

You may not remember, but I also said the buds of day lilies were supposed to be good to eat and I was going to try them. I did indeed sample them, and more than once, boiling them lightly with salt and butter. For a vegetable, they are pretty good. Not much taste, which is a good thing for vegetables.

So that ties up the loose ends remaining from previous articles. Good eating.
