

SCHREIBER MEDICAL CENTRE

---

The Schreiber Medical Centre was officially opened in September of 1975 with many citizens attending. The building was formerly the post office built in 19 . The Council turned it over to the town for a medical centre hoping to obtain a resident doctor or doctors to remain in the town. They felt that it would attract doctors when proper facilities were provided.

It was renovated to provide a doctors' suite of rooms, office, accommodation for a District Health Unit, rooms for a dentist and an optometrist and headquarters for an ambulance. Jack Stokes MPP. Reeve Harold McParland held the ribbon for Doctor Miro Spacek to cut it for the opening ceremonies.
