

Campaign)

Now let us all get behind this movement, and let us all put it over together. The material is on the ground and the work has begun. The committee is about to launch a subscription campaign in order to raise money for the building fund, in order that the burden of the Ladies Aid might be lightened. Each one of us will be able to contribute something toward this fund, some probably more than others but we can all do our bit. Just because you are not on this committee is no reason why you should not be interested in this undertaking. We invite everyone to have a hand in the bricking of this church, which I feel sure is a worthy cause.

Some member of the committee will call on you during the next few days, and we are looking for wholehearted support from the entire congregation.

Thank you.
