HOROSCOPE - JULY - Continued.....

**LIBRA** - September 2 - October 22

 You may do quite a lot of brooding, make quite a few bad accusations, in general make a hash of your life just now. If married and value it at all, protect the marriage from your own dark thoughts. Keep busy, help others freely. Get your Libra personality to work and good nature will do the rest.

**SCORPIO** - October 24 - November 22

 You will go straight ahead with big plans and no one can stop you. You are building your future constructively and must use independent thought to guide you. You may be going after a new career scene and it is best to make a fine impression. Looks like a month for advancement in several directions.

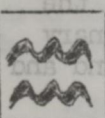

**SAGITTARIUS** - November 23 - December 21

 You can be very hard at work due to conditions in your place of business. Your temperament can be more edgy than usual. If married, you can take offense too easily at the words of your lifemate. Be respectful to older people. Keep your anger to yourself until the tide passes on over. Be gentle and keep your voice low.

**CAPRICORN** - December 22 - January 20

 You can feel the need to be very mature, to use good judgement and to work hard to compensate for some recent frivolity. You may have a large project in mind. You will win support from the family when you show firm determination about ambitions. You win and keep the affections of others.

**AQUARIUS** - January 21 - February 19

 Your cleverness will impress quite a few but will not attract the trust of others. Avoid legal entanglements. You could invite an unpleasant situation by sharp speech to an officer of the law. If you did something wrong, admit it. If you were right, be determined but not sulky.

HOROSCOPE - JULY - Cont'd.....

**PISCES** - February 20 - March 20

 You can be a dynamo this month and handle large requirements and obligations. Do not worry about the quality of your accomplishments. If you have small children be very attentive to their health and do not let a heavy work schedule cause neglect.

NATIVE YOUTH LIASION SPECIALIST PROGRAM

From the office of Mr. Ciaccia has come a new program for Native development. This program is designed to send out Native youth to: 1) Help Native communities find funding sources, 2) bring services and goods to the Native communities, and 3) generally improve on the problems in Native communities. This program has had over \$1 million allocated for hiring personnel. It also has the full support of the Dep. of Indian Affairs and Northern Development. A meeting was held in Ottawa with the new personnel to discuss and outline their functions. The total work force is expected to be 33 youths signed to one year contracts. It is explained that this program is the "dream" of Mr. Ciaccia, Mr. Biach, and other government employees. The government does seem to feel that this is the appropriate response to all the problems that have been discussed in Ottawa. Meetings were held in Toronto by some of the National leadership of A.I.M. to discuss & review the program. It was brought out in the A.I.M. meetings that the government's 1969 white paper said, "...services must come through the same channels and from the same government agencies for all Canadians." It is felt by the A.I.M. leaders that, if this program goes through the reserves and communities will be flooded with more L.I.P., OFY, LEAP, etc. programs. As more of these programs come into our communities, the less responsibility the Federal Government and DIA take for honouring the treaties and their commitment to Native people."
