There are others more handsome by far;  
But my face I don't mind it

Birds Fly Like Helicopters - Hummingbirds can fly forwards and backwards, upwards or downwards, or hover in midair, just like helicopters. A hummingbird's wings flutter so fast the human eye can't see them move.

Birds Can Fly As Fast As a Plane - Common birds fly with great speed. The pigeon, swallow, crow and stork fly at about 50 miles an hour. The fastest bird in the world is the swift of India which can fly 200 miles an hour.

On a green little day  
Mixed some green little chemicals  
In a green little way.  
The green little grasses  
Now tenderly wave  
O'er the green little chemist's  
Green little grave.

And purchased a harp,  
And played several tunes with her chin.
