The 20th Annual Six Nations

INDIAN PAGEANT

at the

Forest Theatre on Sour Springs Highway

presenting

THE GREAT IROQUOIS LEAGUE OF PEACE

Now, why do Canadian History Books continue to libel the Iroquois as a savage and primitive race, when they had a League of Peace 400 years before the coming of the white man? The reason is just plain envy of our high Traditions and History.

The Iroquois had buried their weapons of war and were advanced in pursuing the Arts of Peace at the coming of the white man, who introduced gun-powder and Shattered the Peace. All the early Colonial Wars were wars of extinction for the natives. The Beotucks of Newfoundland and other tribes are no more. The miracle of this day and age is that we have continued to exist. The bow and arrow of the early Indian can bear no comparison with the atom bomb of today in its devastation. Ho, hum, who does history say the savage was? W.J.
