

Radio station to issue release

OHSWEKEN — CKRZ, the Six Nations' radio station, will be issuing a press release to address concerns about the condition of the radio station's facilities.

Last week, five staff members at the station wrote a letter to station manager Tom Morrison "demanding immediate action be taken" concerning what they called "unsafe, unhealthy working conditions."

A copy of the letter was sent to The Expositor.

Mr. Morrison said that he was having difficulties finding suitable and affordable locations.

On Monday, staff members referred any inquiries to Mr. Morrison who would only say he was drafting a press release.
