WEDNESDAY, JAN. 5th, 1921.

MR. JACK BROWNLEE AND
MISS NORA HARDY MARRIED.

On Tuesday of this week, Jan. 4th a quiet but pretty wedding took place at the Rectory of St. Matthew's church when Miss Nora Florence Hardy, only daughter of Mr. and Mrs. Thos. Hardy, Timmins, was united in marriage to Mr. John Albert Edward Brownlee (Jack), eldest son of Mr. and Mrs. Albert Brownlee, 35 Delaware Avenue, Toronto, Ont. Mr. Hugh Richardson supported the groom, and Miss Agnes Angrignon was bridesmaid. The young couple are well known and very popular in the district, and will be showered with good wishes by their innumerable friends. Mr. and Mrs. Brownlee will later take up residence in Toronto.

PROHIBITION PEOPLE
ORGANIZING IN NORTH.

The prohibition people are even starting to organize the North Land with a view to getting ready for the campaign against the importation of liquor. Meetings are to be held in Timmins, Iroquois Falls, Cochrane, Kirkland Lake, Englehart, Haileybury, Cobalt and New Liskeard this month. Dr. Grant, of Toronto, a noted Temperance speaker, is to address these meetings. The date for New Liskeard will likely be Jan. 10th while the other dates have still to be arranged. The Prohibition people apparently intend to have a strong line of propaganda before the plebiscite vote is taken. The Pioneer, the official organ of the prohibition people, carried a display line "Shop Early" during the Christmas season. Perhaps this was a hint to all to get in their supply before the Plebiscite vote, on the principle of Safety First.

COBALT MEN INVENT WHAT
THEY CALL A "SNOWMOBILE".

Two Cobalt men, Messrs. N. Blais and Bob Johnson have recently invented and put into operation what they have more or less aptly termed a "Snowmobile." The machine is for winter travelling and can make about 45 miles per hour. Travellers passing through Cobalt who saw the machine are very much impressed with it. They say it may revolutionize winter travel in this North Land. The Snowmobile can travel handily along any good snow road. It is a Chevrolet on sleighs. A two-blade propeller is the driving power. This propeller is made of white pine and is no wider than the back of the ear. It is protected by a steel guard. The regular 4 cylinder 20 horse power Chevrolet engine is used, the driving shaft being connected by means of a bicycle chain to the elevated driving shaft of the propeller at the rear of the machine. The brakes consist of two iron gripping hooks at the rear. As soon as Henry Ford hears of this Cobalt invention he will be arranging no doubt to fix up the millions of tin lizzies so that they can run winter as well as summer.

BOURKES GOLD MINES NOW
SATISFACTORILY ADJUSTED.

The financial affairs of the Bourkes Gold Mines at Bourkes Siding have all been satisfactorily adjusted now according to the reports to hand. The property was recently offered for sale by the sheriff to satisfy certain judgments and claims, but just previous to the time set for the sale it is understood that Mr. Chas. Miller, of Toronto, who is interested in the company, paid off the judgments and with drew the property from sale. In any event the Sheriff's sale was apparently called off, and some visitors are said to have been disappointed by this. It is said that buyers were present from Buffalo to secure control of the property by purchase. Those who know the Bourkes property are enthusiastic as to its prospects. Up to the present it has shown good results from all development work on it, but these days it takes a lot of money to develop a gold mine. The Bourkes Gold Mine has suffered from financial difficulties on a couple of occasions, but now that it is believed that all the financial matters are adjusted those who have firm faith in Bourkes Gold Mines will expect the property to forge ahead and develop into an important producer.

Schumacher.

MR. KIMBERLEY HEADS THE POLL IN TISDALE TWP

Mr. C. V. Gallagher Re-Elected Reeve
By Large Majority.

The elections Monday in Tisdale resulted in the return of Mr. C. V. Gallagher as Reeve by a majority larger than that of last year, thus showing the confidence of the people in him. Mr. Cook did not poll as large a vote as his friends expected, the fact this is confined to his house with illness for the week previous to the election no doubt having its effect on his campaign.

In the contest for seats on the Council the following were the Councillors elected, in the order named:—E. Kimberley, F. Lafforest, C. B. Morgan and Harry Leng. Mr. Kimberley headed the poll, receiving a large vote at every polling sub-division in the Township. This was the tribute of the rate payers for his good work during the past year and an expression of their confidence and esteem. The Councillors include two, Messrs. Laforest and Morgan, from South Porcupine, and one each from Schumacher and Monona. There is a general opinion that the Council elected is a particularly good one of strong men. At the same time it is felt that some good men were left behind in the race, though all could not be elected. Many, however, feel that Messrs. Musket, McPhee and Cooper were men of ability who would have been of great service to the town if elected. The defeat of Jules St. Paul was a surprise to many, and perhaps best explained by the suggestion that before his first election he promised changes or improvements that he found very difficult to implement when in office. Last year he received a big vote, and though he was not particularly criticized during the last year, his vote this year fell far down. Few men are radicals after they knew the responsibilities of office and the radicals deserted Jules as they have deserted other men in similar circumstances.

The election contest in Tisdale passed off fairly quietly. There was only one meeting at which there was any particularly heated discussion. At that meeting Mrs. Thomas very cleverly routed several who crossed swords with her. Mr. Kimberley was the only one to touch on the matter of the taxation of the hotels at South End and successfully upheld his argument. He outlined very quietly and impartially his stand and the attitude of the Council in the matter.

EX-TERAN OF CIVIL WAR DIES IN SOUTH DAKOTA

News was received last week of the death at Letcher, South Dakota, on Dec. 4th, of Mr. Alexander Mathison, uncle of Mrs. Wm. Twaddle. Deceased left Canada in his youth and joined the 15th Illinois Infantry in 1861, during the Civil War, and was mustered out of service in 1865. He was wounded in the Battle of Shilo and taken prisoner but was in the hands of the enemy only a few days, for when they retreated they left the wounded prisoners behind. He was a frequent visitor to Owen Sound where he spent several winters and summers with his sisters, Mrs. John Thomson and Miss Mathison.

DANCE AFTER HOCKEY MATCH LARGELY ATTENDED.

The dance given in King's Hall last Thursday evening after the hockey match proved one of the most enjoyable and successful of the season. There was a big crowd present of Timmins people, as well as visitors from Iroquois Falls and other points. Some of the visitors were so delighted with the dance that they remained over to the finish allowing the special train to go back without them. The greater part of those from the Falls left the hall at 12 midnight in time to catch the special returning to the Paper Town, but the crowd did not seem to lessen any at the dance hall, others coming to the event until quite late or early. The music for this dance was supplied by Babe Warren's orchestra, and it had lots of snap and melody. The dancers were delighted with the music. Babe Warren was noted for his dance music when he was a resident of this Camp, and apparently he has lost none of his ability in this life since going to the Falls. His orchestra certainly furnished good music for the dance on Thursday evening. Everybody at the dance enjoyed the event, the music and the dancing.

His many friends in the Camp will regret to learn that Mr. J. E. Cook has been confined to the house for the past week or more. Recently in having a troublesome tooth extracted he sustained an injury to one of the bones in his mouth with the result that for some days he was unable to leave the house. The fact that Mr. Cook was unable to address a single meeting or get out among the ratepayers during the election campaign no doubt had its effect on the vote. There will be very few, however, of those who voted for him, or those who voted against him, or those who didn't vote at all who will not sincerely wish him an early and complete recovery from his present illness.

ON SUSPENDED SENTENCE AFTER FULL RESTITUTION

When Mrs. Julia Pechuta appeared last week before Magistrate Atkinson on a remand on the charge of taking goods from local stores by the method known as shop-lifting, it was explained that the fullest restitution had been made. The value of the goods taken during a period of about three months totalled in the neighborhood of \$500.00 it was thought. None of the stolen articles had been worn or used and during the time the woman was on remand they were returned to the merchants from whom they had been taken. In addition the merchants were reimbursed for any further loss they had sustained through being deprived of the goods. In some cases, sales had been missed; in others the goods had depreciated in value. These losses were made good to the satisfaction of the merchants concerned. It was one case of its kind where the expression "full restitution" seemed to have a basis in fact. In view of the complete restitution made and of the apparent repentance of the woman, together with the fact that her children would be perhaps greater sufferers from a jail term imposed than the woman herself, the Magistrate allowed her to go on suspended sentence.

ASSOCIATED GOLDFIELDS REPORTS \$850,000 ON HAND.

At the special general meeting of the Canadian Associated Goldfields Limited, held in Toronto last week the treasurer reported \$850,000.00 cash on hand. Reference was also made to the report that the President had claimed the property had 150 million dollars' worth of ore blocked out. The President emphatically stated he had not said anything like that at any time. Denial was also made of other misrepresentations and it was suggested that "a persistent effort is being made in certain sections of the press to injure all shareholders of Associated Goldfields by paving the way for a sacrifice sale of the stock by the shareholders when the pool is broken." It was pointed out that if the shareholders stood together this plan would fail. Referring to the new manager the President's report says: "Mr. Geo. A. Gray, who has held the position of chief mining engineer of the Dome Mine, and who has been with that company since 1912, has been engaged by your Directors as General Manager and will assume his duties with us on Jan. 1st. Mr. Gray brings with him the experience of many years with mines, and his services should prove of great value to the Company. This selection has met with commendation on all sides."
