MEETING CALLED HERE

All in the District Interested in Children and Good Citizenship Invited To Council Chamber Tomorrow Evening.

The need for an active branch of the Children's Aid Society in this distriet has been apparent for some years past. The Advance in years past has repeatedly emphasized the need, and Mr. R. LeHeup, the Inspector of the Temiskaming C.A.S. has ters at Haileybury has been handicapped in dealing with the work here on account of the immense territory atmense territory as that now left to and the one agent with the means now that does not directly affect Cochrane, that Haileybury did not care about it. question before the Tisdale Council a very creditable performance each f the North Land. For this meeting at command. The Porcupine Camp work for a branch. Rev. Mr. Parks and others here have interested themthat a public meeting has been called for organization. This meeting will be held in the Council Chambers, Timmins, tomorrow (Thursday) evening at 8 o'clock, and all good citizens are earnestly requested to attend and assist. His Worship the Mayor recognizes the usefulness of the C. A. S. and is accordingly interested in the work here. Rev. Fr. Therriault is another prominent citizen interested in the work and expected to be present. The Police Magistrate for the district, Mr. S. Atkinson, is an enthusiast regarding C. A. S. work, because he knows the work and is a lover of children and a believer in giving them a fair chance as the best means to hav ing good citizenship. Mr. Atkinson will be at the meeting tomorrow evening. Mr. C. G. Williams, Dr. Moore and others have also shown a strong interest in the work and its possibilities and the meeting tomorrow night promises to be a large and representative one. 4 In a word the Children's Aid So

ciety may be described as a Patriotic

Society. Its aim is to see that all

children have a fair chance for good citizenship. The Society has a strong dislike for institutional "homes," but a strong regard for real homes for all children. If a child is not having a fair chance for good in its present | ip the first good step by the appoint- iality with which she had been treated home, the Society's part is to see that it gets that chance. If possible the Commissioners to assist Mr. Lee in unable to tell her story before on ac-Sheiety will try and have that home life improved. In cases where that is impossible, the child will be removed to another and better home where its chances for life's good will be increas ed. Thoughtful magistrates and other officers of the law know well enough how often young people need correction or restraint, but they also realize the seriousness of consigning youngs- JESS SPRING NOW WELL ters to reformatories or similar institutions. They know that too often such action means the final step in removing the child's good chances, mirers in the Camp will be pleased to There was much general regret and this addition to the public service.
