

CALEDONIAN SOCIETY TO HOLD SOCIAL EVENING.

The regular meeting of the Caledonian Society of Timmins to be held in the I.O.O.F. Hall on Friday evening of this week, March 25th, will be a Social Evening. Special invitations to all the members have been issued this week to attend and a very pleasant evening is confidently expected. A very attractive programme is being prepared, and all Scotsmen and Scotswomen will find Friday evening of this week at Caledonian Society meeting a very pleasing one.

EUCHERE AND MUSICAL PROGRAMME, MARCH 28th.

The Grand Euchere and Musical Programme to be given in the Parish Hall, Timmins, on Easter Monday evening, March 28th promises to be unusually successful and enjoyable. Tickets for the event are finding a ready sale as the Ladies of Charity, under whose auspices the event is being given, have a well-deserved reputation for pleasant and successful social events of this kind. The event on Monday evening is to observe the anniversary of the Society. Mr. J. B. Fare will have charge of the musical programme which is assurance that this part of the evening will be of the best kind. Lunch will be served free. Everybody will be welcome, and all will find it a very pleasant evening.

GOOD CHANCE FOR THE JUNIORS IN FOOTBALL.

At a meeting of the executive of the Timmins Football Club on Monday, the matter of securing a manager for the Junior Football for the season was left in the hands of President Faithful and Rev. Mr. Cushing, with the idea of securing the services of Mr. W. A. Field if possible. Mr. Field has kindly consented to look after the Juniors this year and all will agree they could not be in better hands. Mr. Field is an old football player of wide experience and with special executive ability. He knows the game and has a special interest in the boys. "I will be glad to do anything I can to help the boys along because in all sports it is after all the boys we must depend on for the future of the game," he said this week. Any boys in the town or district who are interested in football should see Mr. Field at their earliest opportunity.

KING GEORGE HOTEL FOR SALE, WHOLE OR DIVIDED

The King George Hotel building at South Porcupine is being offered for sale, either as a whole or divided up to suit the requirements of the various purchasers. As will be seen from the advertisement elsewhere in this issue the building contains over 200,000 feet of seasoned lumber, made up of V-Joint, Shiplap and Georgia Pine, Hardwood floors, 77 doors and windows, large amount of heavy plate glass radiators, furnace, refrigerator, electrical fixtures, three oven range and boiler, etc. etc. As the advertisement elsewhere suggests this is undoubtedly a rare opportunity to purchase first-class building material. The hotel is now open for inspection and full particulars and prices may be secured at the King George Hotel, South Porcupine. While the loss of this fine building would be a noteworthy one for South Porcupine, the opportunity to purchase the material is likely to attract many from outside. The King George Hotel has for years been one of South Porcupine's most attractive buildings and there will be general regret at the probability of its being torn down. Mrs. Thomas, however, has found it for some years to be far from a money-maker on account of general conditions and recently believing that she was receiving little encouragement to continue to hold it as a hotel property has decided to dispose of it altogether. The South End once boasted two of the finest hotels in the North Land—the Connaught and the King George. Some months ago the Connaught was sold and has been taken down and the material shipped away, leaving the Connaught Hill looking odd and lonely to old-timers. Now, there is a chance that the King George may follow the Connaught. South End is not likely to relish this prospect, especially at this time when many believe the town is again at the beginning of prosperous and booming days with many of the mines re-opening and the established ones increasing their staffs and operations.

SOME GOOD END OF THE SEASON HOCKEY HERE.

In addition to the Girls Hockey, the Kinston vs Firemen games, etc., all well enjoyed, there have been other bright hockey matches here much enjoyed recently by big crowds. During the week-end the Hollinger Engineers tried conclusions with the Samplers, and it concluded 8 to 5, in favour of the Samplers. The Separate and Public School boys last week could not come to a conclusion, the game, though running twenty-five minutes overtime, still winding up a tie. The lads played a nice brand of hockey and their work found much favour with the fans. More games are being arranged for, and if any one should ask you if hockey interest has slackened here, you may tell the world it is greater than ever, and next year this is going to be more than ever a hockey town.

GIRLS HOCKEY GIVES CHILDREN'S AID OVER \$40

Wednesday evening a crowd of three or four hundred people turned out to see the hockey match between two picked teams of girls. The game resulted in a win for Miss Carswell's team by the close score of 1 to 0. Only two or three of the girls had ever played hockey before, but they worked like Trojans, took the bumps and falls without a word, and made a lot of interest and enjoyment for the crowd. Later in the week they tried again, the score on this occasion very much in favour of the former winners. Last night they had a third trial, this time charging an admission fee, and making over \$40.00 for the Children's Aid Society. There were about 400 people present and all enjoyed the game. Part of the fun was cursing H. Burritt, the referee, one man going the length of calling him a regular Sproule. A great improvement was noticed in the play of all the girls and last night they put up a snappy clever line of hockey. Miss Carswell's team was heavier and have a whirlwind pair in Nellie Studor and Lilian McCarthy while Muriel Carswell keeps at it and gets there. In goal Miss Richardson did excellent work, making many good saves. Miss Poulin in goal for Mrs. S. McCoy's team was also unusually effective and got good support from the regular defence. Mary Downey and Maud Boyd were hard workers and did good work for their team. Klelah Brown was probably the star of this team. The way the girls have picked up the game and the good sport they give the crowds to watch makes it generally regretted that they did not start their hockey earlier in the season. If they had, there would be now a couple of classy girls' hockey teams here. The following are the players in last night's game all of whom did well, and only need practice to get there with both feet, standing up:—

Mack Sennett girls (white sweaters) captained by Miss Irene Carswell—Misses Nellie Richardson (goal), Mary Boyd, Irene Carswell, Nellie Studor, Muriel Carswell, Lilian McCarthy, Catherine Fitzgerald, Marie Dufour.

Sunshine Comedy Girls (red sweaters), captained by Mrs. S. McCoy—Misses Poulin (goal), Klelah Brown, Grace Macdonald, Fern McCarthy, Mary Downey, Maud Boyd, Maggie Cole, L. Kendall.

PRODUCTION OF GOLD IN THE TRANSVAAL CAMPS.

The following figures will be of interest for the purposes of comparison, as well as for general information. They are taken from the official figures from the year 1907 to the end of 1920, thus covering fourteen years of production. The figures for 1920 included the gold premium and so look higher than they actually were. Other wise, the production of the Transvaal might be considered at its highest peak during the years 1915, 1916 and 1917, with the tendency in 1918 and 1919 to lessened production. The original figures were in pounds sterling, but are here given for comparison in dollars and so are given, approximately, as follows:—

The production of gold in the Transvaal by years has been approximately as follows:—1907, \$131,538,000; 1908, \$143,800,000; 1909, \$148,443,780; 1910, \$153,624,000; 1911, \$167,960,000; 1912, \$186,036,288; 1913, \$179,318,592; 1914, \$160,822,760; 1915, \$185,411,812; 1916, \$189,527,684; 1917, \$183,954,820; 1918, \$176,465,700; 1919, \$169,843,075; 1920, \$214,653,326. The total production for the fourteen years may be given as approximately \$2,400,000,000.

HEAVY GOLD SHIPMENTS FROM EUROPE TO U. S. A.

Heavy gold shipments from Europe to New York are reported these days. The Steamer Albania has arrived in New York with \$1,750,000.00 in gold for Kuhn, Loeb & Co., and half a million dollars worth consigned to the Equitable Trust Co. The National Bank of Commerce of New York received \$700,000 in gold bars on the Steamer Drottningholm which arrived from Sweden last week. The Aquitania brought \$1,700,000 to the National City Bank, \$750,000 to Kuhn, Loeb & Co., and an unannounced sum to the Guarantee Trust Company. From Holland came \$250,000 in gold coin to Goldman Sachs & Co., and \$200,000 to the National City Bank, these consignments coming over on the Steamer Ryndam.

These consignments of gold from foreign countries to the U.S.A. are comparatively small in comparison to the consignments necessary by Great Britain and her dominions in order to keep credit and the "balance of trade" adjusted and the national finances on a sound basis. Gold is the basic factor of modern trade and commerce and international finances. It is because of this fact that the production of gold at the present time is of such special importance. Producing gold mines may accomplish a great deal in assisting to bring exchange back to normal and to strengthen and establish the country's finances on a firm foundation. Accordingly everything possible should be done to assist the gold industry to "carry on," and nothing should be done surely by any Province to handicap the industry.

Miss Mollie Feldman has returned to her home here after a visit to New York, Buffalo, Detroit and other southern points.

On Thursday evening, March 31st, there will be a Novelty Plank Dance held in King's Hall. Prizes will be given to the first couple accomplishing this feature. Prices as usual.

Mr. H. E. Montgomery, secretary of the Porcupine Rod & Gun Club, has received an answer from the Fish & Game Department of the Ontario Government regarding the stocking of the waters of certain lakes and rivers of this district with fish and bird food. The correspondence from here has been turned over by the Dept. to Mr. Parks, Game Warden for this district. A meeting of the Rod & Gun Club will likely be called at an early date to further deal with the matter.
