**IROQUOIS FALLS BEATS  
RECORD FOR CONTINENT**

**Abitibi Paper & Paper Co. Mill Makes  
Record in April Unsurpassed by  
Any Other Canadian or  
U. S. Mill.**

During the month just past the Abitibi Paper Mill at Iroquois Falls broke not only all its own previous high records but established a new record in high production of newsprint for this continent.

During the month of April, 261 net tons of paper were turned out and shipped every day of the 26 working days of the month. This is an equivalent of 793 lbs. of paper per inch of trim, or 743 lbs. per inch of wire. This surpasses all high productions for a period of one solid month, of any mill in Canada or the United States, running on 32 lb. standard news, of which the record is known.

The Abitibi Mill at Iroquois Falls has four big Fourdrinier paper-making machines of special modern type and the general equipment is scarcely equalled by any other mill on the continent. The up-to-date equipment and the modern system followed throughout are matters that the Abitibi people are particularly proud of but they have a greater pride—the pride in their men and the skill and interest they show in their work. With a plant complete and modern, the best that money can buy and experience approve, and with staffs of men, capable, interested, skilled and ever striving for more efficiency, it is but to be expected that the Abitibi mill should make records and break records.

Some idea of the growth of this papermaking industry in the neighboring town of Iroquois Falls may be gathered from the daily tonnage during the past six or seven years. In 1915, the daily tonnage was 135; in 1916, 203; 1917, 211; 1918, 219; 1919, 225; 1920, 234; and for April, 1921, the record was 261 tons per day, or about double the record in the first year quoted.

Among the other paper mills of the continent the Abitibi has always taken a high place for efficiency and for quantity and quality of output. In April this year, with an abundance of water for power and to supply the necessary pulp, the mill had its opportunity to show what it could really do. From the men in the bush to the men at the last operations before the paper left the mill, all worked for efficiency. Co-operation, interest and love of the work, good equipment, good system, "team work," these were some of the causes that made the records possible. And the men at Iroquois Falls have started out to make May an even more noteworthy month than April.

To the people of the North Land the records of the Abitibi Mill should be of more than passing interest. By making and breaking records Iroquois Falls is not only drawing attention in a pleasant way to this North Land but by the good work—the outstanding work—of the Abitibi Paper Mill much is being done to establish an unusually important industry in the district and to build up this land along right lines.

**TIMMINS SECURES FINE  
FOOTBALL PLAYERS.**

As noted in The Advance on more than one recent occasion the Porcupine Camp has been securing considerable new talent in the last few weeks from Cobalt and other outside points. Finding conditions far from the best further south, men have been flocking to the Porcupine recently, because here the prospects are of the very best. Among the newer citizens there is undoubtedly much talent of various kinds, and this talent will all be appreciated here as soon as known. In the way of sport, the Camp has recently secured a number of first class men. This has been especially true of football, and in this line Cobalt has been a special contributor. Speaking of one of the additions to the Timmins football line-up The Nugget last week said:—

"Another good footballer has been lost to the Cobalt camp. Alex Cadman who has played back and centre-forward here, has gone to Timmins, and his name appears on a list of players available for the team to represent the gold camp metropolis. Alex is a fine player and is certain to make a good impression up North. A number of other players well-known here are signed up with the Timmins team, including several who turned out with local teams a year ago."

Recently the record price of \$250, per foot frontage was paid for a site for a store in Cochrane. The lot so bought had a frontage of 40 feet and brought a price of \$10,000.00. Another lot, with a 20-foot frontage, brought \$4000, or \$200.00 a foot. Cochrane certainly is not hating itself these days.

**NORTH BAY ORGANIZES  
FOR NEXT YEAR HOCKEY**

Last Wednesday there was a largely attended meeting in the North Bay Town Hall and organization was completed for 1922 hockey. The Mayor, John Ferguson, is President, and T. H. Noble, secretary. An advisory committee of four was appointed to co-operate with the officers. North Bay is evidently a believer in the idea of "shopping early."

**TWO MEN CLAIM TO HAVE  
MARRIED SAME WOMAN**

An item in the daily newspapers will have a special local interest in view of the fact that one of the men named bears the same name as a Bulgarian who formerly owned what was then known as the Camberoff block and is now occupied by the Club Cafe, next to Marshall-Ecclestone's Hardware. The V. Camberoff who was here went to Montreal and took up residence there it is understood. In the case now mentioned in the daily newspapers a man named Nicolas Frank charged V. Camberoff with threatening to kill him. The trouble according to the despatches arose over a woman. Frank says he married her in Hamilton and three years ago she left him and went to Montreal. At Montreal she is said to have married V. Camberoff and naturally when Frank claimed his wife Camberoff claimed his and the result was some difficulty. The judges in Montreal will have some tangled case to unravel, and they have recognized that this will take time by adjourning the case for a few days.

**THE FARMERS' GOVT. IS  
ABOVE SUSPICION, SURE**

It is a good thing indeed that everybody trusts the Farmers' Government or at present many good people would be thinking very unpleasant things. If the Farmers were just ordinary politicians as naughty fellows like Dewart and Ferguson have the audacity to suggest, then affairs would look black. Recently, one member of the Government has been accused under oath of making quite a material purchase of automobiles without calling for tenders or securing prices from any but the one man or firm. A wicked witness further said some things about the deal that would be taken to mean a rake-off if ordinary politicians were concerned. Then, again, last week there was odd evidence before the Public Accounts Committee indicating very peculiar methods of buying moving picture films. The Government paid for the films before they received them. Some of the pictures were taken up in this North Land, but the money was spent in the south or at least by southern people. Under ordinary political governments such matters would amount to desperate scandals. But the members of the Farmers' Government are not ordinary politicians. They are extraordinary. Yes! The Farmers are so honest that they tried to make the mines pay double taxes so that the farmers wouldn't have to pay their share. They are so economical that at home they will use a soap box or a milking stool to rest upon while in Toronto it will be a mahogany chair at \$150.00, depending on whether they pay or the country does. Isn't the country lucky to have such a Government? Oh, yes! Indeed the North Land is so ashamed to be enjoying such wonderful luck,—luck that it does not deserve,—luck so overwhelming,—that for very shame's sake this country is talking secession from the older part of Ontario.

**NOTICE TO CREDITORS**

In the Matter of the Estate of Moussa Tawafi otherwise known as Moses Toafey, late of the Town of Timmins in the District of Temiskaming, Labourer deceased.

Notice is hereby given pursuant to R.S.O. 1914 Chapter 121 and amendments thereto that all persons having claims against the Estate of the above named Moussa Tawafi otherwise known as Moses Toafey who died on or about the 20th day of February 1920 are on or before the 1st day of June 1921 requested to send or deliver to me their Christian and surnames and addresses and descriptions and full particulars in writing under oath of their claims and statements of their accounts and the nature of the securities (if any) held by them. After the said date I shall proceed to distribute the assets of the deceased among those entitled thereto having regard only to the claims of which I then have had notice and I shall not be liable for the said assets or any part thereof to any person whose claim has not been received.  
Dated this 15th day of April 1921.  
Rev. Charles Eugene Theriault,  
Timmins, Ont.  
Administrator.

**The Red Cross**  
**Carries On---Why?**

1. Because of demands made upon it in dealing with the terrible aftermath of disease and suffering which always follows war.
2. Because of the serious health conditions revealed by the war—more than half of our Canadian young manhood unfit for combatant military service.
3. Because an international conference of medical experts, realizing that voluntary organization was necessary as an aid to Governments in solving the world's health problems, decided that "no other organization is so well prepared to undertake these great responsibilities as the Red Cross," and that "no movement deserves more the hearty and enthusiastic support of all people than does this."
