**SUPREME IMPORTANCE OF  
 FORESTS TO THE PEOPLE**

"Every Citizen (Directly or Indirect-  
 ly) Owes His Job to the Forest."  
**Show Care for this Truly  
 National Wealth.**

With the menace to life and prop-  
 erty from bush fires so evident at  
 the present time in the North Land  
 it should be easy to rouse the interest  
 of the people in the forests and their  
 preservation. But it is a funny world,  
 —this North Country! Nearness to  
 the danger of forest fires has rather  
 hardened the people to the fact of  
 forest fires. Also, the lack of intelli-  
 gent attention from the southern part  
 of the Province has disgusted and  
 wearied the folks here. The people  
 up here are the kind that "take a  
 chance"—or they would not be here.  
 They have reached the state in the  
 forest fire question where they say—  
 "Oh, we've got to take the chance."  
 The Government is about as intelli-  
 gent as the stumps in a burnt-over  
 area. The attitude of the Govern-  
 ment seems to be that they can not  
 afford even a few thousand dollars to  
 remove any of the menace of bush  
 fires. Last year, for instance, the Gov-  
 ernment was to spend six thousand  
 dollars in clearing a portion of worth-  
 less bush near Timmins to lessen the  
 fire hazard. They spent about three  
 thousand dollars, and then what with  
 calls for money for tenderless auto-  
 mobiles and junketing trips for the  
 Ministers and their mothers-in-law  
 there wasn't enough in sight to finish  
 the life-saving and forest-protecting  
 work. Of course, if the country were  
 to be over-run by a devastating forest  
 fire with the loss of millions of dol-  
 lars' worth of valuable timber and  
 hundreds of lives, then the Govern-  
 ment could come forward with half a  
 million for relief funds that would no  
 doubt give desirable jobs to a number  
 of friends in the administering of the  
 "charity." It is a much nicer job—  
 "to some people"—going around  
 doling out relief funds than working  
 at an honest job like protecting the  
 forests. There is also much more op-  
 portunity for that senseless form of  
 red tape that pleases little minds un-  
 used to authority. The difference  
 between six thousand for protection  
 from forest fires and sixty thousand  
 for "relief" that comes too late may  
 be termed "economy," but The Ad-

vance would call it by a much more  
 unpleasant name.

Perhaps, if the Government and the  
 people generally will not be roused to  
 a true realization of the conditions  
 and the needs by the common-sense  
 and the humane sides of the situation,  
 the business feature, the money ques-  
 tion, the industrial phase, the sup-  
 reme importance of the forests to  
 Ontario, may make an impression.  
 There is an old saying that "you can-  
 not have your cake and eat it too."  
 You cannot have your forests, and  
 allow them to burn down too. With-  
 out the forests of Canada (and fire is  
 destroying them at appalling rate) the  
 whole industrial fabric will be up-  
 set,—one of the foundation stones, as  
 it were, will be foolishly burned away.  
 But let the Canadian Forestry Asso-  
 ciation, a non-commercial and non-  
 Government organization,—a patri-  
 otic society surely,—tell the tale. In a  
 recent letter to the newspapers the  
 Canadian Forestry Association says:  
 "It has been stated that every citi-  
 zen of Canada owes his job to the  
 Forest, that no man whether packing  
 peaches, feeding a printing press, or  
 teaching school can long continue his  
 existence denied the multitudinous  
 services of the common log of wood."  
 "In Ontario, the vast development  
 attributable to the lumber industry  
 is known and appreciated. What  
 strides have been made by the young-  
 er brothers of the wood-using indus-  
 try pulp and paper, are not so well  
 understood.

"Ontario possesses 16 paper mills,  
 9 pulp mills, and 13 combined pulp  
 and paper mills, a total of 38 estab-  
 lishments out of 99 in the entire  
 Dominion. They represent a capital  
 investment of \$95,281,000 out of a  
 total of \$264,561,000. They give em-  
 ployment to 8,571 persons, exclusive  
 of woodmen. They distribute in wages  
 and salaries \$11,666,000 a year, out  
 of a total of \$32,323,789 for the whole  
 of Canada.

"Too much emphasis cannot be given  
 to the influence of Ontario's pulp  
 and paper plants upon agricultural  
 settlement. Each industrial unit cre-  
 ates a municipality of thousands of  
 people paid at high wages and de-  
 manding far more farm produce than  
 the settlers in their immediate neigh-  
 borhoods have yet found it possible  
 to supply. Markets near at hand are  
 the first essential to land settlement  
 in Ontario's northland and such mar-  
 kets are being supplied by the pulp  
 and paper towns and to a lesser de-  
 gree by the mining camps. The For-

**MANY FROM NEARLY EVERY  
 PLACE IN THIS HERE CAMP**

There is somebody from nearly  
 everywhere in the Porcupine Camp.  
 Every part of the known world may  
 be said to be more or less represented  
 in the citizenship of Porcupine. So it  
 was only to be expected that the item  
 in last week's issue of The Advance  
 regarding the Old Boys' and Girls'  
 Reunion at Goderich, Ontario, on  
 August 7th to 11th, would find one or  
 more specially interested readers, for  
 the "old home town" ever hold its  
 place in the affections and thoughts  
 of the boys and girls who grow up  
 and go away. But not only were many  
 personally interested but it is likely  
 that this part of the North Land will  
 send a noteworthy representation to  
 the Goderich Reunion event. There  
 will be at least two going from the  
 farm town of New Liskeard. The  
 Youngs of Cochrane are natives of  
 Goderich, and may take in the event.  
 Provincial Officer W. Moore, of South  
 Porcupine, is another Goderich Old  
 Boy. He was chief of police in Goderich  
 for a number of years. Officer  
 Moore has so arranged his holidays  
 this year that he will be able to at-  
 tend and enjoy the old home-town re-  
 union. Mr. R. Richardson, T. & N. O.  
 station master, was born near God-

erich. Sheriff Caldwell is another on  
 the list of Goderich Old Boys. Col.  
 McLaren, one of the new T. & N. O.  
 commissioners was born in Goderich  
 and is one of the successful sons of  
 the charming Lake Huron town. And  
 there are no doubt several other God-  
 erich Old Boys and Girls in this dis-  
 trict who will attend the Big Reunion  
 on August 7th to 11th. Goderich is  
 preparing a wonderful welcome and a  
 delightful week of entertainment and  
 pleasure for all her wandering sons  
 and daughters. No Goderich Old Boy  
 or Girl, no matter how long they may  
 have been away from the old town  
 need fear getting lost if they go back  
 now. No matter where they may be  
 on Goderich streets the "wheel-  
 spoke" layout brings them back to  
 the central beauty spot. In the same  
 way all roads for Goderich natives  
 will lead back to the central beauty  
 spot on Lake Huron on Aug. 7, 8, 9th,  
 10th, and 11th.

**THIS SURELY LOOKS AS IF  
 TIMMINS WAS GROWING SOME**

In an alleged special despatch dated  
 from Timmins, July 7th, a certain or  
 uncertain, Cobalt newspaper says:  
 "Bush fires are raging around the  
 OUTSKIRTS of the town, particu-  
 larly in the vicinity of the Dome and  
 Davidson mines also at Sandy Falls."  
 "Some skirts, eh? Timmins is certainly  
 making great strides forward, so per-  
 haps the seven mile skirts are neces-  
 sary to match the famous "seven  
 league boots." But Mr. F. C. H.  
 Simms says it is not right, as this is  
 the day of narrow skirts.
