WEDNESDAY, JULY 20th., 1921.

**ANOTHER SUCCESSFUL
OPEN AIR BAND CONCERT.**

The public generally were well pleased with the second open air band concert given at the athletic grounds on Thursday evening last by the Timmins Citizens' Band. A number of excellent selections were well given by the Timmins Band. A good crowd of music lovers turned out for the occasion and all were pleased with the work of the Band in general. A similar band concert at least once a week will be appreciated and will further popularize the Timmins Citizens' Band.

**THE PREMIER OF ONTARIO
SAYS SUCH FUNNY THINGS.**

At the New Liskeard picnic Premier Drury said: "I chose my cabinet ministers for their ability and my desire to put the right man in the right portfolio." Even the farmers laughed at this choice sample of Gascon humor.

In his heart, no doubt, the Premier thinks the only case where he did not pick a lemon was when he selected the Premier. And the people in general will agree with him in this, except as regards the Premier.

**JACINTO AND VAL GAGNE
WANT STATIONS ON T. & N.O.**

Delegations waited upon Chairman Geo. W. Lee last week asking for stations on the T. & N.O. Railway. One deputation from Jacinto (better known as The Wye) asked for a station there. They formerly had a station at Jacinto, but as it was only some 700 yards from the Iroquois station it was removed as superfluous. The other station asked for was at Val Gagne, formerly Nushka. The requests were taken into consideration, but it is hardly likely they will be granted at the present moment on account of general conditions.

**IROQUOIS FALLS COUNCIL
GIVES \$100 TOWARDS CUP.**

Following the lead of other towns in the North Land, and in pursuance of the understanding before the cup was made, Iroquois Falls Council last week passed a resolution donating \$100.00 to help defray the cost of the unique trophy put up by the N.O.H.A. for competition among the hockey teams of the North. Sudbury also last week donated \$100.00 to the fund. There are still some towns in the North Land that still have to "come across" for this trophy. New Liskeard with a team in the League and Cobalt unrepresented last year in hockey each gave \$50.00. Good for Cobalt. The other towns concerned are nearly all giving \$100.00 each. The cup cost about \$600.00, the special cost being due to its unique design and style, all the materials used for its construction being North Land metals, gold, silver, nickel, etc.

**ARBITRATION BOARD HELD
SESSION AT THE FALLS.**

The Arbitration Commission taking evidence in regard to the demands of the International Unions for increases in wages and decreases in hours in the pulp and paper mills of Canada and the United States held an open session at Iroquois Falls recently. The Abitibi Company, through the general manager, Mr. R. A. McInnis, filed statements showing an increase of 82 per cent. in the wages paid in the past five years, a statement of the retail prices at the store showing an average decrease of 31 per cent., and the house rental basis showing an average rental of \$22.76, a review of the losses to the company in the hotel and camps, the price of hard coal supplied at cost to all employees, etc., etc. The Unions called a number of men to show that the costs of living had not fallen in June, 1921, as compared with June, 1920.

It will likely be some time before the Arbitration Board can give its finding, a number of other mills in Canada and the U.S.A. having to be visited. In the meantime everything is going along as usual at Iroquois Falls, and the general hope will be for an early and mutually satisfactory final settlement of the questions in dispute.

Mr. Geo. S. Drew leaves this week for a holiday in the south.

**WE HAVE WITH US AGAIN.
—THE THREE BALLOONATICS**

The board of enquiry into the trip of the three U.S.A. airship men who landed near Moose Factory last December has announced its finding and apparently the three flight lieutenants are relieved from all censure in the matter. The court of enquiry, as officially announced from Washington, says that the flight was duly authorized by the commanding officer, though the crossing of the Canadian border was never contemplated. It will be recalled that the aeronauts strayed far away in their naval balloon, eventually coming down near Moose Factory, where the Hudson Bay factor took charge of them and saw to their removal by dog team to the railway line, so that they could get back to their own land. Mr. John Jones, well-known in the Porcupine, went out from Cochrane with his dog team and escorted the party back to the railway line, moving pictures of this part of the event being taken on the trail. At the time the newspapers gave undue prominence to the "lost" airmen and their alleged hardships, which latter were supposed to so effect two of them that they came to blows. The announcement of the board of enquiry, however, gives an official ending to the whole affair.

**MINOR LOSSES FROM THE
BUSH FIRES IN DISTRICT.**

With the number of bush fires throughout the North Land this summer, and especially with the exaggerated accounts published in daily newspapers, it might be expected that there would be very heavy losses in the way of property destroyed as well as serious loss of life. Fortunately, however, this is not the case. There has not been a single life lost through the bush fires in the North Land this year. The property loss also is not nearly so serious as the exaggerated accounts in certain daily newspapers would lead one to expect. The fires, speaking generally, have burned over areas that needed clearing. Around towns like Timmins, Iroquois Falls, etc., they have really done good, removing bush that might be more or less of a fire menace in future years. Settlements generally have escaped, and even individual settlers, with a few exceptions, have not suffered much this year. Some of the chief losses have been from pulp wood piles destroyed. Scores of cords of pulpwood have been destroyed by fires. These piles of wood have been left unguarded, being owned by people in the south who apparently have been disgusted with the twists in the pulpwood market. The lumber mill owned by Mr. R. S. Potter at Wassach, near Matheson, is reported as totally destroyed by fire, together with a quantity of lumber. A mine building at Bourke's as well as a quantity of pulpwood in that district, also listed as destroyed by bush fires. Some damage was done to settlers' places in the vicinity of Nahma, near Cochrane, but apart from these the damage has been confined to comparative small individual losses by settlers. Among the heaviest losses reported is that of Mr. T. J. Lawlor whose loss at his farm on the Mattagami River is figured at around \$3,000.00.

**DR. JERRY LAFLAMME MAY
GO TO HAILEYBURY? WHAT?**

A story is going the rounds of sporting circles to the effect that Dr. Jerry Laflamme, the famous Toronto hockeyist, is coming to the North Land in the very near future to reside, and that he will locate at either Timmins or Haileybury to act as the coach of the local hockey team. The necessary local color is given to the story by referring to the recent visit of Dr. Laflamme to both Timmins and Haileybury. Because Jerry stayed longer in Timmins than in Haileybury some wise guys think his chances are longer for coming here. Others, in view of the fact that he was at Haileybury after leaving Timmins think that the last shall be first and so Jerry will land in Haileybury where there is said to be a fixed determination that not only will the County Town have a team in the N.O.H.A., but that team will stay in the League and finish the season, first it is hoped, but finishing anyhow. Those who suggest Haileybury as likely to secure Dr. Laflamme suggest that he will purchase the dental practice of the late Dr. Robins. In any event it is understood that Dr. Laflamme has disposed of his dental practice in Toronto and is accordingly looking for a new practice in some live town or city. Dr. Laflamme himself said he was "just visiting" in the North Land, but these guessers knew better, so let them have it their own way. In the meantime, however, it's a wonder someone has not affirmed that Iroquois Falls has secured Dr. Laflamme. The Falls is usually accused of securing nearly everybody in the line of hockey and baseball, though when the seasons get under way Iroquois Falls does not seem to use as many "new" men as the other towns of the North Land.

**REBEKAHS TO HAVE SAIL
ON MINGA TOMORROW EVG.**

The Rebekahs of Timmins have arranged for a cruise on the Steamer Minga to-morrow (Thursday) evening, July 21st. The boat will be ready at 7.30 for those who wish to come a little early to choose a place on the steamer for the cruise. The Minga will leave the dock at 8 o'clock sharp. All members of the Order and their husbands are cordially invited to take in this pleasant cruise to-morrow evening.

**T. & N.O. ANNUAL PICNIC
TO BE HELD ON AUGUST 20th.**

While complete arrangements have not yet been definitely made it is understood that the annual picnic of the T. & N.O. will be held this year on Saturday, August 20th. The T. & N.O. picnic is an annual event that becomes more popular each succeeding year. It is designed primarily as an outing for the employees of the People's Railway and special trains are run on the line for the accommodation of the excursionists. The picnic this year will be held again at New Liskeard beach.

**BURNING MOTOR CAUSES
ALARM OF FIRE LAST WEEK.**

While in his apartments over the Hollinger Stores Grocery Department last Thursday evening about eight o'clock, Mr. Frank Lamb noticed smoke and the smell of smoke but was unable to locate any fire. Not to take any chances he called up the fire hall and suggested that a couple of fire-fighters come over and locate the fire if any. Leaving the phone then he started down stairs for further investigation and found the fire team with a crowd of firemen on the wagon drawing up to the door. In addition, there were four policemen right on hand to keep order in the big crowd that had gathered almost instantly on seeing smoke filtering from the grocery store basement. "That is what I call service," said Mr. Lamb. In a few minutes the firemen had made a full investigation. There was a lot of smoke in the store and the basement was just filled with smoke. The cause of the smoke was located as a burning motor. The motor used in the meat department of the Hollinger was burning out and the smoke and smell of smoke and oil, etc., was very penetrating. The firemen looked after the matter, seeing that there was no danger of fire from the burning motor, etc. The only damage caused was through the burning-out of the motor itself.

TIMMINS NEWS IN BRIEF

Haileybury has called a meeting for to-night to organize for the coming season's hockey.

Police Court promises to be lively again to-morrow, with a number of O.T.A. cases, some theft cases, an assault case, and some other incidents and accidents.

Rev. Father Beaudin is conducting a Mission at the R. C. church here and large congregations are attending the services.

The Timmins Junior Baseball team was defeated at Schumacher last night, the score being 11 to 7 in an unfinished game.

The week-end game in the Mines League between Hollinger and McIntyre at Schumacher had to be called owing to the rain.

The game on Monday between the Married and Single Men was an exciting and interesting practice match, very much so. The crowd was very much disappointed because it had to be called on account of the rain. It went five innings without a score, and though there were a few errors, it was just that kind of ball. Jimmy Deacon pitched for the Married and Oscar Haquist for the Single, with good work in each case. Joe Everard umpired. It was the right kind of a practice.

The Cochrane Post last week says: "Miss Emily Nunn left on Sunday for her holidays which she will spend in Haileybury and Timmins."

The Kingston Baseball team under the management of Pete Macauley played at Connaught during the week end and won a notable victory.

The Timmins Girls Baseball team defeated South Porcupine girls at South End Monday evening, score 10 to 2.

WANTED—Maid for general household work; good wages. Apply 12 Hemlock street.
