WEDNESDAY, AUG. 10th., 1921.

**TIMMINS AND HOLLINGER
IN MINE LEAGUE SERIES**

The next game in the Porcupine Mines League series is Timmins at Hollinger this week-end, Aug. 14th. This should be a lively and interesting game. Since the district games have gotten under way baseball talent has been developing fine, and both the Hollinger and Town teams will be much stronger than at their last meeting together. The Mines League games serve as excellent practices and are useful in showing the talent developed, as well as being interesting and oft-times exciting exhibits of pleasing baseball.

**COBALT MAYOR WANTS
HIGHWAY STARTED NOW**

In an Open Letter to the Press, Mayor D. McEachren of Cobalt asks for an early start on the building of the North Land highway, emphasizing the advantage by such work to relieve the unemployment problem, as well as the advantages of the highway to the North Land. Mayor McEachren scores the indifference or neglect of Governments in coping with the unemployment question. As a sidelight on Mayor McEachren's ideas, it may be noted that in North Bay a public meeting has been called to see if some thing can not be done to guard against the threatening danger of hardship and suffering this winter through unemployment. The building of the proposed highway would give employment to large numbers of unskilled and skilled men and could be so handled as to greatly relieve the unemployment problem. As a work for the benefit of the Province in general it could not easily be excelled. It is just the sort of work that the Government should undertake at this particular time, as a means of relieving the threatened unemployment and as a method of assisting in developing this great North Land.

**HOLLINGER STORE HOLD
AUGUST CLEARING SALE**

To reduce stocks to made room for the new season's goods and to clear out all broken and discontinued lines of summer merchandise, the Hollinger

Stores Limited are holding an August Clearing Sale and quoting such special prices and big values that the goods will undoubtedly move out quickly. There are clearing prices on Dry Goods, Men's Furnishings, Boots and Shoes and Rubbers, and the values offered should attract the public. Examples of the bargains obtainable by the people may be noted in the full-page advt. elsewhere in this issue and on the posters distributed this week. The sale starts tomorrow (Thursday) morning at 8 a.m., and will continue until 7 p.m., August 20th. This is a legitimate sale with unusual values offered and should attract the general buying public from all over this big district. In addition to the values obtainable at the sale Hollinger and McIntyre employees also get the advantage of an extra 15 per cent. by using the coupons accepted as cash.

**BIG VALUES OFFERED IN
AUGUST FURNITURE SALE**

As will be noted by the full page advt. elsewhere in this issue and by the large posters issued, Marshall-Ecclestone Limited are conducting a special sale in their furniture department and a great number of unusual values are offered. The furniture is all up to the usual high standard set by Marshall-Ecclestone quality and the people of the district have the opportunity to secure great values in furniture during this sale. It will pay all in the whole district roundabout to note this sale and take advantage of the opportunity. On account of lack of room in their temporary quarters on Pine street Marshall-Ecclestone wish to reduce their big stocks and are using the method of strikingly low prices and unusual values to accomplish the purpose.

**CLIFTON SHAREHOLDERS
TO MEET ON SEPTEMBER 13.**

It is understood that a general meeting of the shareholders of the Clifton-Porcupine Mines will be held in Toronto on September 13th. The two chief questions before the meeting it is said will be the matter of re-opening the property this fall for active development and the accompanying plan of installing a 50-ton mill. It is figured that there are about 10,000 tons of ore around \$15 per ton indicated by the work so far and with the decreased costs these days this ore could be milled at a figure that would leave a nice profit that could be devoted to the further development of the property. The Clifton has some cash in the treasury and is all ready for re-opening when conditions are propitious. Its mining plant is a good one and will care for the necessary work there for some time to come. It is thought likely that work will be resumed at the Clifton within the next few months and that the property will eventually be developed into an important producer.

**TAX RATE 45 FOR PUBLIC,
47 FOR SEPARATE SCHOOL**

(Continued from page 1)
money on it for the present. This year, he added, it would be impossible to spend anything in any event. "Will we pay taxes this year?" Mr. Wallingford asked. "No," was the reply. "Then that's all right," was Mr. Wallingford's response, "for the people of Mattagami are not looking for something for nothing. We are not getting something for nothing now, though there are some who seem to think we are. The idea that Mattagami is benefitting at the expense of Timmins is a mistaken one. We are not benefitting by being outside the town. If anything it is the other way round, and Timmins benefits in certain ways by the townites adjoining." Councillor King referred to the road now maintained by the Province in Mountjoy. In case of annexation of Mattagami part of this road would have to be taken over by the town. There were other important points to consider. The question was one that needed much careful thought. Council agreed to this, and the matter will be given every careful study when the petition from the residents comes before the Council. On motion of Councillors Newton and King the Council express its favour to the proposed annexation and asked the residents to submit the necessary petition in the matter.

Mr. W. Gagne appeared again before the Council in regard to the planing mill carried on in town. He asked again for the necessary permit to carry on the industry. The matter was referred to the Fire and Light Committee, Mr. Gagne to continue as here before in the meantime.

Mr. J. A. Walsh was awarded the contract for the additions to the fire hall, the price being \$1280.00.

The contract for sidewalks was awarded to the lowest bidder, Mr. Leo Mascioli, whose figures were 40c. square foot for cement and 21c. for board walk.

Mr. T. J. McGrath was awarded the contract for grading fifth avenue, the price being \$1675.00, the lowest tender in this as in the other contracts obtaining the work.

Councillor King brought up the question of increased water service facilities. The town would soon need an additional main. The mines needed water and Councillor King thought it might be possible to arrive at some comprehensive scheme that would take in all. He also referred to the well and intake, and suggested digging another well. The present well could then be cleaned and put in good condition and there would be two wells for use. The cost would not be very great and it would be well worth while. The Mayor said the whole water problem would have to be gone into thoroughly as the growth of the town required extensions, etc. After some discussion on the various features of the matter it was moved by Councillors Newton and Morin, and carried that Messrs. Noble and King be appointed a committee to interview the mines and the other parties concerned in ways and means as to the possibility of installing a larger and better water system for the town, and report to the next regular meeting.

The matter of the collection of garbage and scavenger work was touched upon again. Councillor Morin, chairman of the Contingencies Committee reported investigating the suggestions made at last meeting. He had also conferred with the sanitary inspector, the scavenger, etc. He found that the service in general was good, and much of the trouble was caused by the people themselves. Household holders did not have proper receptacles for their refuse and the scavenger could not be expected to look after them properly because of their own neglect. The Mayor suggested the purchase by the town of the required number of proper cans, these to be sold at cost to householders. The price would be around \$1.30 each. Councillor King did not think the town should go into the merchandising business, but that people should secure the cans required by law from the men in the business in town. With the passing of the hot weather the necessity for more frequent collection of garbage was not a pressing matter. It would cost considerably more, perhaps \$100.00 a month more than the present contract rate. The Council were agreed that the present scavenger was giving good service and the question was allowed to drop.

Mr. N. Ansara will open an up-to-date dry goods store in the Ansara block, Third Avenue, next to the Old Empire theatre, the end of this month. Mr. Ansara has been in business in Cobalt for some years. Some months ago he purchased the building on Third Avenue from Mr. A. Brazeau. The building has been re-modelled and re-decorated and will make a handsome and well-equipped store. The suite of rooms upstairs will be used by the new Timmins Business College.

**TIMMINS WINS FROM THE
FALLS WITH 9 TO 5 SCORE**

(Continued from page one.)
and popped to Scully. 0 runs, 0 hits, 1 error.
Timmins—McIntyre singled, McCurry popped to Little and doubled McIntyre at first. Scully fled to Kendall. 0 runs, 0 hits, 0 errors.

7th. innings
Falls—Little struck out. Morrison popped to Spring. Renaud doubled to deep left. Kendall out Scully to Pierce. 0 runs, 1 hit, 0 errors.

Timmins—Farr singled. Spring walked. Pierce's roller was muffed by Little. Sheehan's rounder was picked up by Girouard and he held on to it while Farr scored and everybody safe. Lake singled scoring Spring and Pierce. McLean singled scoring Lake. McIntyre singled, McLean scoring. McCurry's single scored McIntyre. McCurry out trying to reach 2nd on the play. Scully fled out to Kendall. Farr up for the 2nd. time in this innings, popped to Brydge. 7 runs, 5 hits, 2 errors.

8th. innings.
Falls—Brydge struck out. Bousquet doubled. Buncke singled, scoring Bousquet. Anson popped to Scully. Girouard hit into a force. Spring to Scully. 1 run, 2 hits, 0 errors.

Timmins—Spring singled. Pierce popped to Anson. Spring stole 2nd. Sheehan singled scoring Spring. Sheehan stole 2nd. Lake safe on Anson's error. McLean singled scoring Sheehan. Lake was caught napping at 2nd. McIntyre struck out. 2 runs 3 hits, 1 error.

9th. innings
Falls—Little singled and went to 2nd, when McIntyre threw the ball away. Morrison on Spring's error. Little out at home plate on Renaud's fielder's choice. Boucher batting for Kendall was hit by pitched ball. Boucher out stealing. Renaud scoring. Brydge struck out. 2 runs, 1 hit, 3 errors.

NOTES OF THE GAME

(From The Broke Hustler)
Ellie had an off day with only three strike outs and giving two bases on balls.
Timmins went scampering round the bases so fast in the seventh that Lefty Farr had two times at bat.
Harry Buncke provided the comic end of the game when he fell asleep a couple of feet off first base in the second innings.
There were an unusual lot of flies in the game. Eleven Falls men died this way and thirteen Timmins. Most of the Falls flies were pops.
The diamond is the deadiest for some time.
The Timmins coach at 3rd. base helped us to a double play. McIntyre tried to bunt with McLean on second. He was caught on first and McLean trapped at third.
The second double play was in the sixth. McCurry flew out to Ellie Little who slammed to Bill Brydge catching McLean cold.
In the second half of the fourth Scully and Spring flew to Renaud and Lefty to Bousquet.
Scully made a splendid catch of

Kendall's fly in the fourth. He had to run back to get it.

Duke McCurry is touted as a crack-erjack ball player. Perhaps, but not at short. He drew Pierce off first nearly every time he threw.

**LABOUR DAY EVENT
AT IROQUOIS FALLS**

(From the Broke Hustler)
The arrangements for Labor Day are going ahead quietly but steadily and everything looks favorable for the greatest Labor Day yet seen in the Falls.

The monster parade in charge of T. H. Wilkes and his committee bids fair to be the biggest thing of its kind ever pulled off in the North Country. There will be close to a thousand men in the parade, giving an impressive idea of the numerous personnel of the mill and how the various departments tally as to number of men employed.

An effort is being made to have the field and track events away above the ordinary haphazard affair they generally are, and it is hoped to attract outsiders to compete.

The baseball match and the other attractions will also be above the ordinary.

The Community Entertainment Committee has offered its services which have been accepted and their work will count for a good deal in cinching the success.

The final item of the day, the Pulp & Sulphite Dance in the Town Hall, is being given unusual thought. Among the arrangements so far made is one to have the refreshments served at the Firemen's Hall. This will leave the whole Town Hall for dancing, and the walk to the supper room will give the dancers a breath of fresh air which they will appreciate.

WANTED, girl for housework. Apply 24 Hemlock street, or Phone 110.

FURNISHED HOUSE FOR RENT— Apply 6 Balsam street. 31-32p
