WE OR the Ford Company cannot be held responsible for the performance of your Ford if you use parts not made by the Company.

The Ford warranty automatically becomes void the moment you use spurious parts on your car.

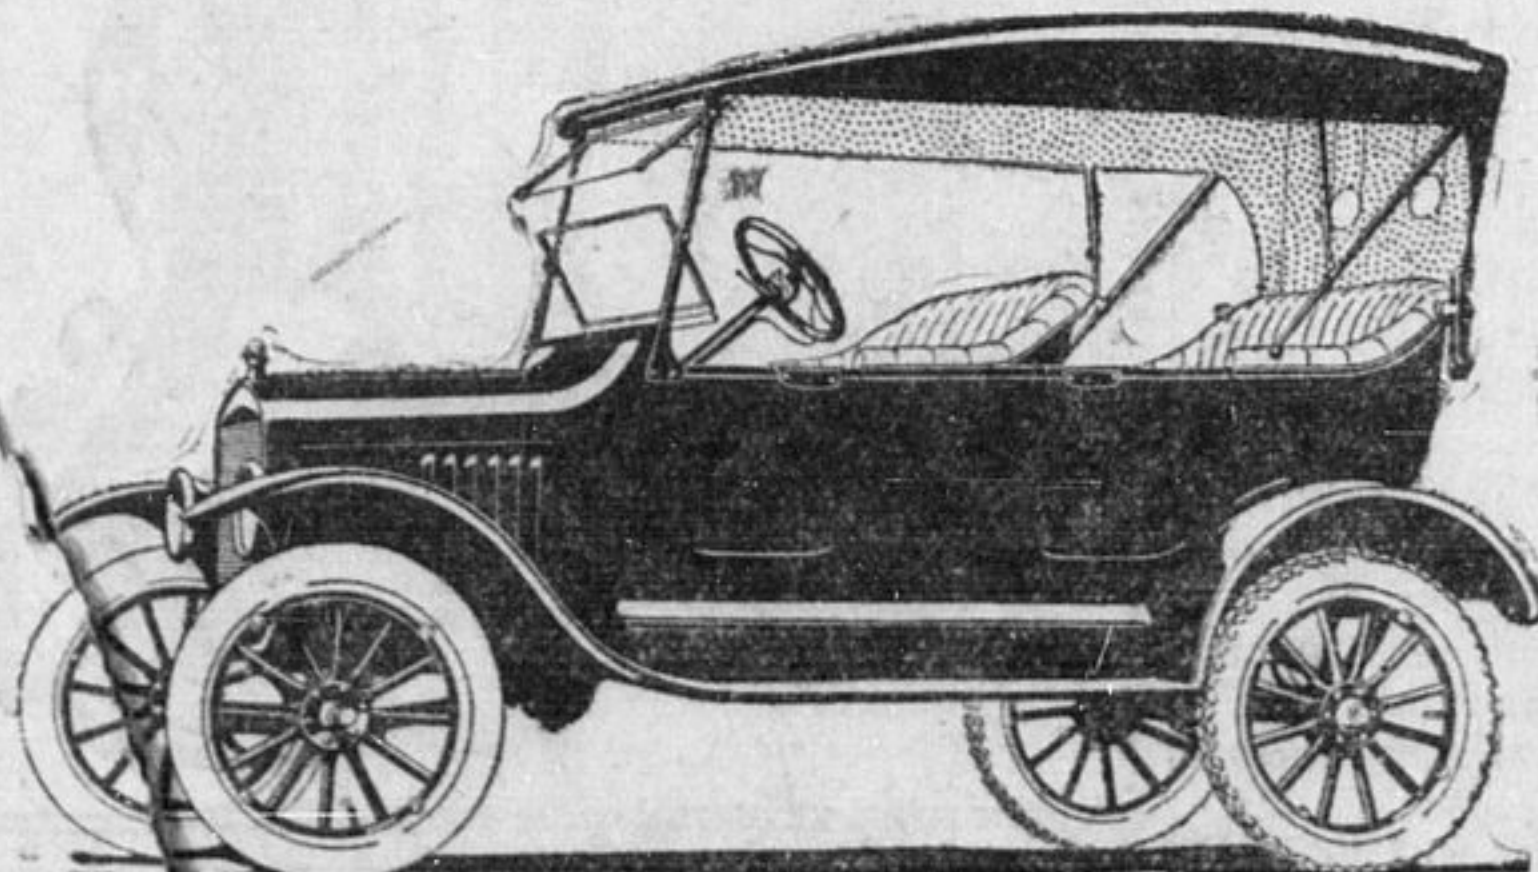

You cannot afford to incur this penalty. Nor do you want your car weakened by badly fitting parts made from poor material.

Spurious parts are manufactured with profit as the first consideration. Genuine Ford parts have the Ford reputation to maintain.

It is to the interest of both the Company and ourselves that your Ford shall give you continuous satisfaction. The interest of those who make and sell spurious parts ends with the sale.

The one way to make sure of getting the genuine is to patronize the dealers or garages displaying the Ford Service sign. That sign shows that the dealer has bound himself by contract to sell genuine Ford parts only. Wherever you go, look for this sign, your guarantee of satisfaction.

As Ford dealers in this community, we render Ford service. We sell genuine Ford parts at a standard price which is set by the Ford Motor Company.
