

DRUG STORE SERVICE

You expect and rightly so, that your Drug Store service should be of the very best. There can be no delay over mistakes if you are still to retain your confidence in the store. The line of goods carried must be the best obtainable, and the prices right. We want you to know that

We Run This Sort of Drug Store.

These are the days when any trouble in reading shows up very plainly. Dark, dull days where every effort has to be used for reading or close work, brings out the deficiency very quickly and brings home to us forcibly the fact that our eyes are not right. Eye troubles require an optometrist.

Bring Your Eye Troubles To Us.

The Curtis Drug Co.

Timmins News in Brief

Mr. Geo. S. Drew returned last week from his holiday in the south.

Sky's Millinery Opening, at South Porcupine, Aug. 25, 26 and 27. —34

Mrs. D. Sutherland and daughter have returned from their holiday in the south.

Mrs. R. P. Teare returned last week from a holiday spent in Toronto and other southern centres.

Mrs. W. F. Richardson returned last week from a visit to Ottawa, Pembroke, and other points east.

Don't forget Sky's Millinery Opening at South Porcupine, Aug. 25th, 26th, and 27th. —34

Mr. and Mrs. R. Boyle, of Cobalt, are the guests of their daughter, Mrs. W. Armitage this week. Mr. and Mrs. Boyle are on their way home from a three months' visit to the West.

Rev. Father Therriault returned on Saturday from a very enjoyable trip through the east. He and Rev. Fr. Leduc had a delightful motor trip through Quebec, making pleasant camp at any place that suited their fancy. On the trip down to Quebec they were accompanied by Rev. Fr. Therriault's brother who had been visiting here after several years in Africa on a mission work.

Finest display of up-to-date millinery at Sky's Millinery Opening, at South Porcupine, Thursday, Friday and Saturday, Aug. 25th, 26th, and 27th. —34

One of the settlers up the river has written Hon. Beniah Bowman to see what the Department of Lands & Forests is going to do to see to the interests of the settlers in the matter of amounts owing from the Mattagami Pulp Co., now in receivership. The answer to this letter will show whether the Department is anxious to do its part to truly assist the settler to all he asks—a fair show and a square deal. Wait and see! And how are you betting?

The T. & N. O. Employees Annual Picnic at New Liskeard on Saturday attracted several from Timmins and district who report the event as a pleasant success. There were the usual rounds of athletic and sports features, with a special baseball match, Callander vs. New Liskeard, the latter winning 6 to 1. Mr. Waddell, Timmins, won second in the 220 yds. open, first being taken by M. Lidkea, North Bay. The dancing contests in the pavilion were also special items on a much-enjoyed day's programme. The attendance at the picnic is estimated at 6000.

Those attending the Toronto Exhibition this year should make a point of having an honest-to-goodness meal at the Adelaide Grill, corner bay and Adelaide, a very convenient location and a very up-to-date eating place, but better still, kept by Mr. J. J. Walsh, Mr. Walsh will be remembered as the popular conductor of the best sort of a restaurant at South Porcupine. He also managed the Temagami Inn with much satisfaction to the public generally. His place in Toronto is beautifully appointed, and the food is "Jake." Porcupine people should look up J. J. Walsh at Exhibition Time. They will be glad to see the oldtimer and he'll be glad to see them. Another good time to see him would be anytime anyone from here is in Toronto.

The game scheduled for this weekend in the Mines Baseball League is McIntyre at Hollinger.

Mr. and Mrs. J. Massie leave on Saturday for a two weeks' vacation in Toronto and other points south.

Remember the Grand Millinery Opening at South Porcupine at Sky's, on Thursday, Friday and Saturday, Aug. 25th, 26th, and 27th. —34

Timmins Citizen Band has been engaged to play at Iroquois Falls on Labour Day, and the boys expect to go out in force to the big Paper Town on Monday, Sept. 5th.

Fire Chief Borland, Mrs. Borland and Miss Maimie returned on Friday last from a few weeks' holiday in the south and east. While away on his holiday the Chief represented Timmins at the Dominion Fire Chief's Convention held this year at Three Rivers, Que. They also visited their old homes in London, Woodstock, etc.

Thompsonite the new explosive, is expected to be in active use this week. For this new explosive it is claimed that it is non-freezing, gives off no poisonous gases, the miners can go back to work as soon as the blast goes off, and the further claim is made that Thompsonite is much more economical than the ordinary explosive though more powerful.

The petition regarding the annexation of the Mattagami and Mattagami Heights townships is now in circulation. As mentioned last week the petition provides for ALL to sign, either for or against the proposed annexation to the Town of Timmins. It is understood that the people of the townships are signing almost unanimously for the annexation idea.

Mr. Alf Prout and party went out fishing this week in Craft's Creek, apparently not believing the suggestion that all the fish had been taken from the creek and eaten by a mink after men had brought the fish to land. Alf did not take any other chances, however, the party going up by canoe. Alf explains that if you tie a canoe properly it will not run home alone. This is all right, but at the same time you can't do any bare-back riding or wild west stunts with a canoe.

Last week a big crowd gathered in Cochrane, a young cow moose visiting the place and parading the main streets of the town, apparently not knowing it was out of the bush. But, seriously whatever else may be said about Cochrane folks, they must be credited with the right kind of kindly hearts. The young moose got caught twice in fences and barbed wire and each time was gently liberated and allowed to regain its liberty in its native bush, without a shot or a stone being fired at it.

The first kiln of brick at the Matheson Brick and Tile Co. plant at Matheson (the industry organized by Mr. R. S. Potter, but more recently passing to the company above-named, controlled by Hamilton interests) was turned out last week. This kiln included ordinary brick and the decorative buff tapestry brick for facing purposes, a sample of the latter being left at The Advance office where this new product of the North Land may prove useful to throw at anyone coming in to kick at something appearing in what they term this blankety-blank paper. Hitherto gold bricks had to be used. Kickers please note the change.

ELECTRIC RANGE FOR SALE—cheap for cash. Electric range, 4 plates and oven, complete with service switch, wire and conduit; used 6 months; in first-class condition. J. J. Keown, Box 103, Schumacher, Ont. 30-34p.

SEALED TENDERS FOR WOOD

This sixteenth day of August I offer for sale by sealed tenders one hundred and twenty-five acres of wood. Tenders will be accepted up to the seventh day of September, 1921. This wood can be seen on the north half of Lot 2 in the Fifth Concession in the Township of Mountjoy. This would be an ideal opportunity for several citizens. Terms can be arranged on purchase. Address all tenders to R. J. CONVERY, Box 33, Mattagami Heights, Ont. 33-34p.

GIFTS THAT LAST

At Prices you can afford to pay.

Moreover we can give you expert advice as to the make and quality of the goods we handle.

The Trail Breaker

SURVEYORS and sportsmen—men whose transportation requirements are intensely practical—whose work takes them to out-of-the-way places, invariably prefer the Ford.

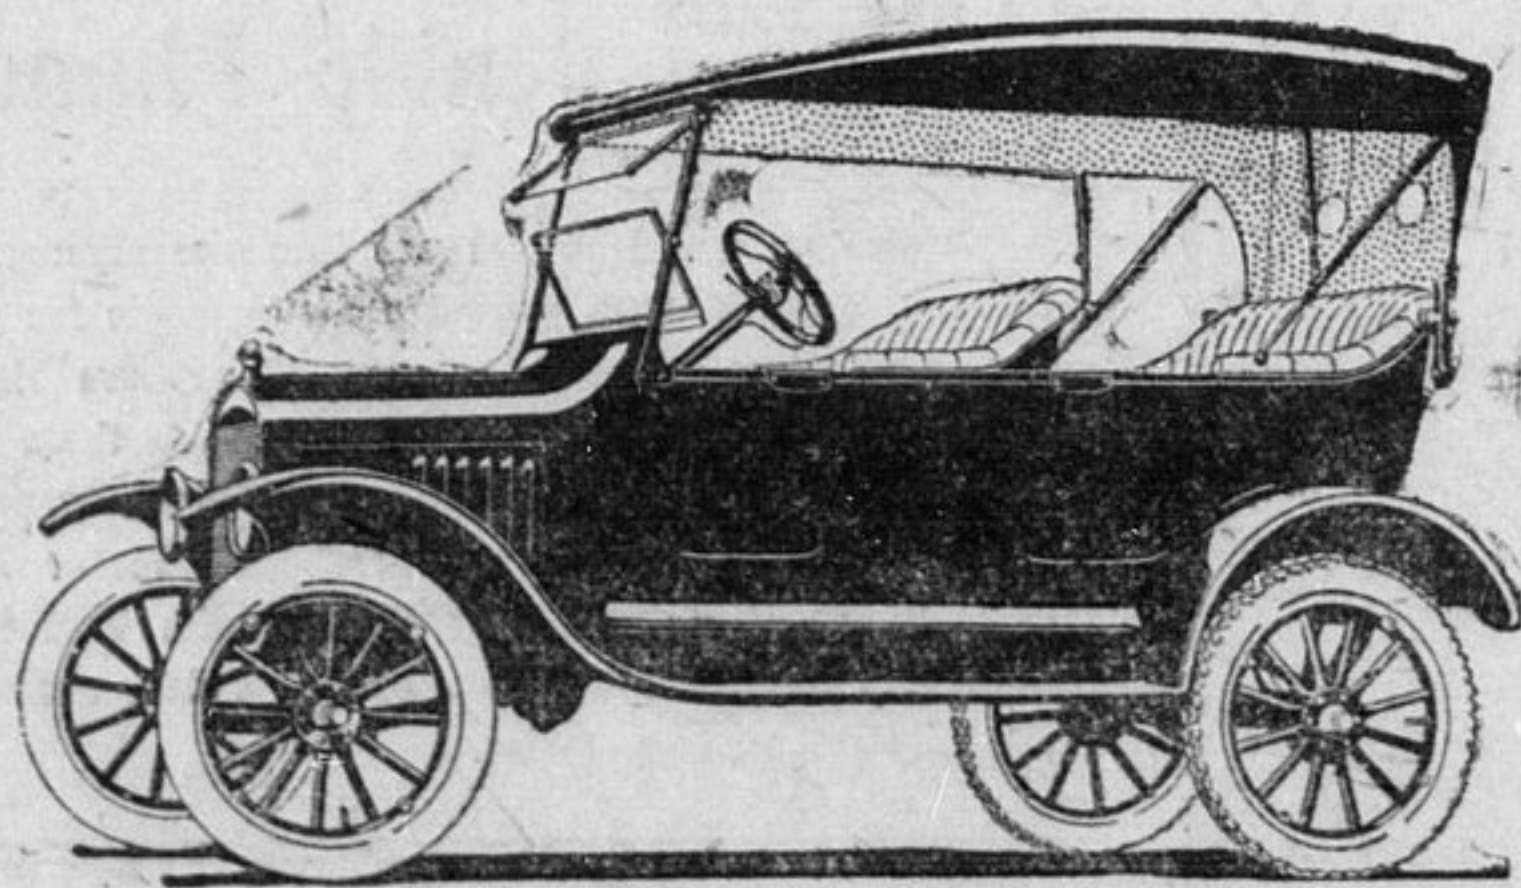

Settlers living far from the beaten path find that the Ford gives satisfaction on crude, rough roads.

The Ford is the trail breaker. On the regular roads of this part of the country the car that meets the test of the trails is the car that will give you satisfaction year in and year out.

The Ford is sturdy construction throughout. Vanadium steel is the costliest steel used in motor construction. Every strain bearing and wearing part is of this wonderful material. It is not the ordinary vanadium steel sometimes found in other cars. It is Ford vanadium, heat treated by the exclusive Ford method.

The same sturdy, rugged construction prevails throughout the car. No wonder the Ford owner is master of the roads wherever he may be!

We sell Ford service. We see to it that Ford efficiency, put into the car by the makers, is maintained. We keep our stocks of genuine Ford parts always complete. Our skilled mechanics are ready to answer your call for repairs at any time. Let us come to you and demonstrate the Ford.
