“The Porcupine is the Most Prosperous Spot in Ontario To-day”

This is what a commercial traveller said this week. Last week other travellers suggested the same thing, and the week before, and next week, and for some time, that idea is quite correct. Many thanks.

Everything is O.K. here every day (except Sunday).

The commercial men are in touch with trade and business through the country.

Of course, there's a moral!

You want your share of the Porcupine prosperity. It's up to you!

If you are in business in the Porcupine or elsewhere and want your share of the Porcupine business, it's up to you!

The answer is: Advertise! Tell the people what you have to offer in goods and value and service.

'Tis the only way.

And there is only one real medium--
The Porcupine Advance, Timmins.
