### THIS PRESCRIPTION WAS NOT GOOD FOR EYE-OPENER

"It is very hard to keep up with modern manners and methods," says a local prospector. Recently he went to a local optician and was fitted for a pair of eyeglasses. So excellent were the glasses and so well did they suit his eyes that the only thing that troubled him was the fear that he might lose or break this pair of spectacles and never be able to get another pair to suit him as well. The optician endeavored to reassure the prospector, telling him that he had all the necessary details and particulars in his books so that he could at any time duplicate this particular pair of glasses. To clinch the matter the optician finally said, "I'll give you a prescription if you like!" The customer smiled dryly. "Thanks," he said. The optician started to write out the prescription. "Say couldn't you make that prescription for 16 ounces, instead of 8, while you're at it," asks the prospector softly. The optician says:—"This is a prescription for glasses, not for liquor, you understand." The prospector replied with a wink, "Sure, I understand, and I don't care whether it's for glasses or by the bottle, but make it sixteen ounces now like a good fellow." Then he took the prescription and hurried away. He went to the nearest drug store and coolly presented that prescription. "Guess you've made a mistake, eh?" suggests the clerk. "This prescription is for eyeglasses, not an eye-opener." Despite his new glasses, the prospector could not see the point for quite a while. Then he said, "Oh, I see. If I want to see well I get a prescription from an oculist, but if I want to see double I get one from a doctor."

Friend Mike was told this true story. "How do you do!" says Mike, "but I don't see the joke." "Then you ought to consult an oculist," he was told. "How do you do!" says Mike, "and will you give me then the name of the eye doctor that's giving prescriptions away with every pair of glasses."

As will be noted by the announcement elsewhere in this issue, the Toledo Scale Co. have opened a sales room and service station at North Bay and are carrying there a full line of new and second-hand scales. Mr. M. Wernick has charge of the branch at North Bay.

## WEST DOME AND DOME LAKE SOON TO AMALGAMATE

Report from Usually Reliable Source Suggest Merger Practically Settled.

It is understood that in the course of the next three weeks the merger of the West Dome and the Dome Lake will be an accomplished fact. Negotiations now under way to this end are proceeding very satisfactorily and all that is required now is practically the final formalities, the basis of amalgamation being satisfactorily adjusted. According to the general understanding of the situation the plan is to form a new company to take over the Dome Lake and West Dome. The new company will have a capitalization of five million dollars. West Dome and Dome Lake will each receive 1,500,000 shares of this stock, par value \$1.00. The balance of the stock will be treasury stock and it is planned to sell a million shares at around 20 or 25 cents a share. The money secured from the sale of this stock is considered to be ample to get the merged mines going and continue them along to the producing stage. It is understood that within three weeks the amalgamated properties will be running along in good shape. Plans are under way for an extensive development campaign for the immediate future with further thorough exploration of the properties. With the mining equipment now at the properties, the ore bodies blocked out, etc., work is expected to proceed to the earning stage at a rapid pace. The outlook for the merged properties is a good one and further details will generally be awaited with much interest. Recently there have been suggestions that the matter of a merger had been dropped, but this does not seem to be correct. Indeed, the only basis apparent for such a suggestion is the fact that the proposed amalgamation has held fire for so many weeks. This latter, however, is understood to be only due to the natural difficulties and details that must be adjusted to assure a fair deal and general satisfaction to all concerned in such a merger. All these adjustments have been successfully carried to the final stages, according to the information now to hand, and the question of the merger appears now to be only a matter of a few days and a few formalities before it is an actual working fact.

### PAINKILLER LAKE MINE TO BE RE-OPENED SOON

Capt. H. Hibbard, of Kent, Eng., was a recent visitor to the Santa Lucia Mine in the Painkiller Lake district. Capt. Hibbard was representing English interests now concerned in the Santa Lucia property and it is understood that the purpose is to re-open the mine in the very near future. The Santa Lucia has a shaft down 100 feet and considerable work has been done on the property with very promising results. Some five years ago a bush fire was responsible for the destruction of the mining plant on the property and the loss caused by this fire was a serious handicap to the property. It was not altogether a dead loss, however, for the fire cleared up the property and so simplified work there now. Also, it is believed that part of the plant and machinery may be salvaged even at this late date. In any event it is understood that work will be taken up again at an early date and exploration and development work carried on with a view to proving up the property.

### HOLLINGER ANNOUNCES DIVIDEND NO. 89 OF 1 P.C.

Announcement is made this week of a dividend of 1 p.c. on the paid-up capital stock of the Hollinger Consolidated, payable Oct. 7th. to shareholders of record Sept. 22nd. This is the tenth dividend of one per cent. for this year and brings the total disbursed to shareholders to \$2,400,000.

### ENGLEHART BOXER NOW WANT TO STAGE A BOUT

Writing from Englehart last week Charlie Boone, formerly of Cobalt, and late of the U.S. Navy, wants to know if any Timmins promoters would give him a chance against any 135-lb. boys, outsiders preferred. Charlie apparently is ready to meet anything in the 135-lb. class, and any here that feel the same way can write to him at Englehart.

Mr. Sam Newton, Chief of Police of Haileybury, and well-known in Timmins and other parts of the North Land, last week found a policeman's lot may be quite a happy one. It's a baby girl, born on Tuesday, Sept. 13th.

## The Safety of Mutual Insurance

THERE is no safer investment than life insurance.

If the Mutual Life of Canada were to stop selling life insurance and just continued in force the policies now on the books, the resources of the Company would not only pay all claims as they occurred, but there would remain a splendid surplus to be distributed in the form of dividends.

As a proof of the safety of Mutual Life Insurance, let us see how the immense assets of the Company are invested.

Government Bonds.....	\$7,721,631.55
City Debentures.....	3,504,151.94
Town Debentures.....	1,293,465.72
Village Debentures.....	154,631.35
Township and Rural Municipalities..	649,283.58
County Debentures.....	151,783.61
School Debentures.....	1,676,248.68
Rural Telephone.....	1,422,201.80
Railway Bonds.....	1,617,713.68
Miscellaneous Bonds & Debentures	1,203,459.12
Mortgages.....	14,934,368.52
Policy Loans.....	5,335,268.01
Real Estate.....	1,059,987.73
Sundries.....	2,123,081.96
	<b>\$42,847,277.25</b>

Among all these millions, there are no speculative securities. Safety First, Last and All The Time is the motto of the Mutual Life of Canada.

As an additional precaution, the investments are widely distributed in every province in Canada and in a variety of sound, safe securities.

Working on this careful system has resulted in the unusual and highly desirable combination of well-secured principal with a high interest-earning rate.

The prudent, conservative business man will find in the Mutual's system of investing its funds a very strong reason for the purchase of Mutual Life Insurance.

Have you a Mutual Life Policy among your assets?
