

DAVIDSON TO START WORK AT 500-FOOT THIS WEEK

The Davidson is about dewatered and it is expected that a start will be made this week on mining work at the 500-foot level. The prospects are very promising for this property from all reports and with the good financial backing of the English interests recently associating in the company great hopes are held for the progress of the Davidson and its development into a mine of importance. Mr. Bent, it is understood, will be the resident manager of the Davidson.

BOYS SHOULD NOT TEAR THE BOARDS OFF THE FENCE

Recently the Athletic Grounds Committee has suffered loss and annoyance through the practice of some boys of tearing off the boards on the ball ground fence adjoining Moneta. It is thought that this destructive work is being done by school boys attending the Moneta school. The boys are too good at the job, apparently being able to tear the boards off again as quickly as they are repaired. The Athletic Committee do not wish to have to prosecute any of these mischievous boys, but it is certain their destructiveness can not be allowed to continue. The boys should be warned that they will find themselves in difficulties if the mischief is not stopped. At the same time it should be impressed upon the boys that it is most unsportsmanlike to destroy the property of the town athletic field. It is one of those senseless things that the right kind of boy will avoid after his attention is called to the matter. The other kind of boy will have to be properly impressed with the matter from another standpoint.

RUMOURED CUTTING DOWN OF T. & N. O. TRAIN SERVICE

Reports have reached here to the effect that very serious curtailment of the train service on the Porcupine branch is contemplated on and after Sunday, Oct. 2nd. There is nothing official, but it is understood that certain changes are to be made. Enquiry at the station here brought the reply that no new time table had been received here yet, that is, previous to 2 p.m. to-day.

When on their last visit to Timmins, the T. & N. O. Commission dropped the suggestion that the winter time table would mean some curtailment of train service for this part of the North Land. Traffic conditions may warrant some cutting down of the service, but it is to be hoped that the reduction will not be as bad as reports suggest. According to these reports there will be only three trains from here and three coming in each day, and these three will not have the advantages of the present service. The reports suggest that No. 46 and No. 47 will stop at Englehart, and those coming to this district from Toronto will have to transfer to the National at Englehart to continue their journey. The local train now known as the Cochrane train is also said to be cancelled after this week. If these reports are correct the reduction in service appears to be a serious one. People here feel that the present Chairman and Commission are bending every effort to give the people the best possible service, and so will be inclined to give the matter at least consideration and perhaps a trial before putting up a kick. But in any event it will be expected that the Commission will keep in close touch with the situation and be ready to remedy the matter if the service proves inadequate.

Miss Laura Peters returned home on Monday after a visit of a couple of months to points east.

PASTEURIZED MILK TO BE SUPPLIED IN TIMMINS

Mr. T. F. King has made arrangements with the New Liskeard Dairy Co. for a supply every day of fresh, pasteurized milk to be sold here. This milk is of superior quality and has the additional feature that it is uncontaminated by handling in any way, every step being conducted by specially sterilized machinery and appliance. The pasteurizing also guarantees the purity and healthfulness of the milk.

PRETTY HOUSE WEDDING ON ELM STREET LAST WEEK

A quiet but pretty house wedding took place at the home of the bride's mother, Mrs. H. Twaddle, Elm street, on Tuesday of last week, Sept. 20th, when Miss Ellen Twaddle and Mr. Robt. Russell were united in the bonds of matrimony. Only the immediate friends and relatives of the contracting parties were in attendance. Rev. J. D. Parks, pastor of the Timmins Presbyterian church, officiated. Mr. and Mrs. Russell have taken up residence in Timmins in one of the houses of the new Hollinger Townsite. During their residence in town both the bride and groom have made many friends and all will extend very sincere good wishes at this time.

"FOGHORN" MELANCHOLY OVER EUROPE'S PLIGHT

"Foghorn" McDonald, widely known throughout the North Land for his connection with mining, prospecting and general advertising, has recently returned from a visit to the Old Land, and is reported as giving interviews to the newspapers regarding the bad economic and industrial situation in England at the present time. He is appalled by the unemployment, the closing down of so many factories, the general laziness that seems to have afflicted the bally working classes, and other sad signs of these times of high wages and short hours. He sees "blue ruin" roosting in the offing. There is no prosperity apparent to him in good old England. Friend "Foghorn" should visit the Porcupine and cheer himself up. It's a good old world this North Country.

PLEASE LET NOBODY SHOW THIS ITEM TO CHARLIE

In view of the fact that recently there has been much discussion and consideration of the young lady with the lovely eyes who took in a number of subscriptions and so on in Timmins some months ago, the following paragraph from The Pas (Manitoba) Herald may be of more than passing interest:—
"The Provincial police are issuing a warning that a man and woman, Mr. H. Stewart and Miss A. Stewart, are travelling round collecting subscriptions for magazines and periodicals without authority. They take the subscriptions, collect the money and forget to send in the order. The order books they are using belong to a Montreal firm. Anyone being approached by these people are advised to communicate with the Provincial police."

COWARDS NEVER SUCCEED

Analyze the career of any man who has achieved his own success, and you will find, when you run him into a corner, that he has a pronounced quality of courage. Cowards never succeed. Any man who wins through to the high places has overcome critical periods, and the reason he is where he is, is because he had courage when the fellows around him didn't. Fortune may turn on the courage of a moment.—Rhodes. Colossus.

NORTH LAND THE "MARKET GARDEN" OF THE PROVINCE

In recent issues of The Advance reference has been made to the mistaken notion that some of the agricultural bugs in connection with the Farmers' Government seem to carry around in their heads, that the North Land, agriculturally speaking, is fit only for raising cattle. Nothing could be much wider of the mark unless it is some other view of the Farmers' Government. Again the attention of these agricultural big bugs or big agricultural bugs is directed to the possibilities of the North Land as a market gardening section. Last week reference was made to some of the market gardens up and down the Mattagami. This week special notice is directed to a market garden on a town lot, Mr. Paddy Rowe, one of the old-timers of the North Land, has been occupying his spare moments by looking after a garden on his lot on the Mattagami Road, just a few blocks from the heart of the town. Mr. Rowe has a garden that would make most Old Ontario market gardens sit up and take notice. His crops this year were big,—big in the size of the crops, and big in the size of the individual specimens. But if the "size" were truly remarkable, the "quality" was even more so. Potatoes, cabbage, cauliflower, beets, radish, turnips, tomatoes, etc., etc., were grown in this garden truly in quantity and quality alike noteworthy. Some folks have said that while green tomatoes were usually a big success here, the market gardener of the North Land could not ripen them. "Can't, eh?" asks Paddy, "well, what do you think of these." "These" were ripe, red tomatoes that would make the mouth of any tomato lover water. So it was with practically every line of market garden produce. There were rows upon rows of the very best this year at Rowe's. Anyone who says the North Land may not become the great market garden of the Province should see Mr. Rowe's 1921 garden.

TIMMINS NEWS IN BRIEF

Mr. Geo. Campbell returned this week from a three weeks' holiday in the south.

Don't miss that baseball match this afternoon. Batteries—Lefty, Charlie and McIntyre, and Tate and McLaughlin. Will it be some game? You can tell the world!

The local Rebekah Lodge are giving a Pie Social in the I.O.O.F. Hall to-morrow (Thursday) evening. All Oddfellows, Rebekahs and their friends will be welcome.

Owing to the absence of Magistrate Atkinson in Toronto this week, the police court here to-morrow (Thursday) will be presided over by Magistrate Tucker who is the Provincial Magistrate for Cochrane and the district west. Magistrate Tucker presided over the police court here last week.

Mr. Frank H. Keefer, M.P. for Kenora and Port Arthur, announces as a foremost plank in his platform for the present election, "the immediate formation of a new Province to take in the District of Patricia and from the Manitoba boundary to some point near White River."

Miss Jean Inglis, formerly a popular member of the Timmins Public School staff, is visiting friends in town. She will leave in a few days for North Bay to take up her duties as teacher there, the school with which she is connected not being ready for use at the usual opening date for school.

Mixed Farming the Great Future for North Country

SUCCESSFUL FARMER OF RAMORE TELLS OF BEING PENNILESS NINE YEARS AGO AND IS NOW OWNER OF A BIG PROPERTY.

(From The Broke Hustler)
"Nine years ago I had not enough money to pay my fare up to this country. Now I have a property, which with stock and implements is worth \$12,000."
That is the story of Fred Newlove of Ramore, who paid the Falls a visit, September 13, on Farmers' Day.
Mr. Newlove had been a farmer near Orillia, Ontario. He had left the farm to do mining and other work and nine years ago had a chance to come North to do assessment work for a mining company. He did not have the money to pay his fare. The company paid it for him. He had a look over the country and liked it; he liked it so much that he decided that this was the real country for the farmer, in spite of the wild talk about the climate. He took a farm near Ramore. He cleared a little each year.
"I had a hard struggle at first," he said. "There were few roads and little market for farm produce. Yet I survived. As time went on things got better and I have now 65 acres cleared and under cultivation.
"I went in for pure bred stock as well and have a fair beginning. I estimate the value of my farm, buildings, stock and implements at \$12,000. That is not bad for nine years is it?
"I tell you, sir, this is the country for the farmer. I would not go back to Old Ontario to farm for anything. This is the real great farming country of the future. There is nothing can beat it. All this talk of Northern Ontario not being suitable for mixed farming is wrong. It is the very country for mixed farming. I have tried it and I speak with knowledge.
"More, it is getting better every year, as the climate changes with the cutting of the timber."
